CAMERON, MILAM COUNTY, TEXAS, THURSDAY, OCTOBER 9, 1941.

NUMBER 26.

NOTABLE NEWS EVENTS IN PICTURES

RELIEF MATCH—For the benefit of dependents of deceased officers and enlisted men in the armed forces, poloists, representing Long Island and Texas, had it out on the polo field at Governor's Island near New York City. Scene during the fray shows Lewis of Texas riding down the ball.

SWIMMING INTO ACTION—Scottish guardsmen, training at a Southern England camp, are shown swimming a stream in full battle kit, with part of their equipment forming floats for a Bren gun and anti-tank gun. England's defenders are kept at constant peak form.

AN EXPERT EGG-BREAKER, employed in a Fort Worth, Texas, plant, where eggs are broken and separated into powdered whites and yolks. This industry promises to be one of the fastest growing in U. S. after the war.

COLORFUL—Deep armholes and softly tailored styling of Ann Eden's green wool suit with orange stripes definitely labels it as an advanced style. Pleated skirt carries out the slim-lined effect.

CALL TO STATIONS—U. S. N.—With the sleek 16-inch guns of the U. S. S. North Carolina towering overhead, crews scurry to battle stations on the after-deck of the world's mightiest battleship as the great ship was put through its paces during armament test "somewhere at sea." Men in foreground are battening down the hatch, as is always done prior to sea battles.

FOR FORMAL WEAR—Alexis Smith presents stunning formal of aquamarine crepe roma. It has long tight sleeves, V neck and interesting mid-riff decoration. Gold embroidery accents front.

THE TOPS IN HATS—Madeline Shannon, Arlette Martine and Jayne Keith (left to right) display new fall hats at the second annual Fall Fashion Futurity at Washington Park Racetrack in Chicago. Despite a shortage of materials, tiny hats are passing out of fashion.

DOG AMMUNITION CARRIER—Destined to carry relief munitions to units trapped afield by the enemy, dogs such as "Mark," a thoroughbred animal, are being put through daily training paces in England. Above he is being taught to carry machine gun ammunition through shot and shell to a cut-off unit.

CROCHET MODELS—This white turtleneck sweater crocheted in cotton and flaunting a shoulder band of brilliant embroidery, is in vogue for sports events.

An Old-Time Rider of the Blue Stem Grass

By ELIZABETH STAPLES

P. O. Box 4082, Station A, Dallas, Texas.
(Copyright, 1941, by the Southwest Magazine Co.)

ALTHOUGH 69 years old, C. D. (Doug) Lewis can still do a hard day's work on his 400-acre farm and ranch near Haslit, Tarrant county, Texas.

Mr. Lewis is no one-cropper; he raises cotton, wheat, oats, barley and feeds them to livestock on his farm. In addition he raises enough vegetables, chickens, hogs and milks enough cows to keep the family table well supplied with food the year round. Mrs. Lewis balances the family food supply with about 700 quarts of home-canned produce each year. A fine housewife and cook, she is known far and wide for the delicious fried chicken served to guests.

The Lewis combination farm and ranch is ideally situated on a rolling prairie of rich chocolate-colored loam. His white-face cattle, his horses, mules, hogs, milch cows, chickens, etc., make a pretty picture against a background of well-built barns, sheds, corrals and windmills. The farm equipment is all mechanized with four tractors and a combine.

Doug Lewis is an old-timer and comes of pioneer stock. His daddy drove longhorns up the Chisolm trail. Doug remembers the longhorns—he used to drive a yoke of longhorn steers. "Their names were Berry and Brownie," said Doug. "They had horns that measured 5 feet from tip to tip and, when the

steers were yoked to a wagon, their horns overlapped.

Fightin' Longhorn Cows

"Only cattle I ever saw while growing up were longhorns," continued Lewis, "good for beef but not for milking. We used to milk some of the gentlest cows and it took three longhorn cows to equal one good milk cow now. There were fighting cows among the longhorns. (Doug paused to roll and light a cigarette). Rope one of these wild fightin' cows and you had trouble on your hands. Funny thing how they seldom appreciated a kind act. For instance, screw worms got into some cows and in order to doctor a cow for the worms we had to cut her out from the herd, throw her down, stick one of her horns into the ground and pull one of her forefeet over the other

C. D. LEWIS,
Haslit, Texas.

horn. That would hold her while we poured the screw-worm killer into the wound. After destroying all the worms and cleaning out the wound we now came to the most ticklish part of the job. As soon as the cow got on her feet she would charge—try her best to hook the innards out of somebody. I managed to escape the brute's fury in this way: I'd mount my pony, use my loop lariat to reach down and jerk her leg loose from behind her horn, then while she was getting up I would be going from there at terrific speed. My pony knew what was coming and needed no quirt to urge him on. Believe me, it was no time

for a man's horse to step in a gopher hole."

Lewis' listeners laughed heartily at this episode while he rolled and lighted another cigarette. A good story-teller, he was at his best when talking about old times.

Badly Scared Negro

"I remember once we had a burr-headed negro working for us and his name was Lee. In summertime when the range was good and calves young some cows gave more milk than calves could suck. That meant a few calves would get more milk than was good for them. One day Lee, while riding around among the cattle, discovered a calf sullied down in the grass. He picked up the calf, put it across his saddle, and started for the corral so we could examine it. He had gone a short distance when the calf began to bawl. The mother cow took in behind Lee, fighting mad, because she thought he was trying to steal her calf. The negro heard the cow bawling, looked back and saw her coming toward him in a dead run. He

buffalo bones that lay thick on the prairies. It was a pitiful sight.

"Well do I remember how Fort Worth looked in the late 70's. It had a little rock courthouse, a public square partly built up, board sidewalks and unpaved streets. I rode into Fort Worth on a wagon-load of cotton, pulled by 3-yoke of oxen. We bogged down in a mud hole on Main street. The driver cracked his bull-whip and talked to the oxen, calling each one by name and insisting that he do his best to pull the loaded wagon out of the mud. Finally the oxen gave one great heave together and out came the wagon wheels from the deep ruts. These old bull-whackers knew their oxen.

End of Wagon Freighting

"Soon after this incident the Texas & Pacific railway was built into Fort Worth. Oxen freight handlers bitterly opposed the railroad, claiming it would put them out of business, which it did. The freighting of merchandise by wagons to and from Fort Worth, Dallas, Jefferson, Houston and New

of men. Coming of the railroads killed it.

"You may wonder why oxen were used for draft animals instead of horses. Well, we had no mules and horses (we called them ponies) were all raised on the range and of mixed Spanish breed. They weighed from 700 to 800 pounds, too light to pull a loaded wagon or plow up virgin sod. But when broken to bridle and saddle they made good cow-ponies. Toughened, wiry, they could stand up under a hard day's ride and could outpitch any rodeo horse I ever saw. In my younger days I was a pretty fair bronco buster, but I've taken many a nasty spill from the backs of these little range ponies. They could pull more tricks when pitching than a magician.

"I've seen a heap of changes in my 69 years. Might call it that period of changes from rawhide to silk. Folks have grown soft in this machine age, they work less hard and worry more than the pioneers, but they get more done."

One of Doug's listeners asked him if he would like to go back to the "good old days."

"No," he replied emphatically. "The world never goes back. To go back kills all progress, all that we have ever learned. Life's a struggle anywhere, anytime. About the best we can do is to have faith in ourselves and hold our heads high."

Leningrad

The city named after the father of Communist Russia is the nation's traditional "window on the Baltic." It dominates a great ship-building and manufacturing district, protected by a ring of forts and by the Kromstadt naval base. Built by Peter the Great on swampland, it became the palace-studded Czarist capital and the spring-board for the Bolshevik uprising of 1917. With a population of 3,200,000, it ranks second only to Moscow as Russia's largest city.

"The mother cow took in behind Lee, fighting mad."

struck a gallop, but she was right on him at the corral gate. Lee circled the corral, dropped the calf and dashed inside as I rode up and slammed the gate shut. The cow hit the gate head on, breaking one of her horns. Lee was safe all right, but a badly scared negro.

Blue Stem Grass

"When I was a boy this rolling prairie (Lewis waved his hand) was all grown up in blue stem grass. The grass, though green, had a blue tinge. Blue Mound, a landmark near here, was named for it. A native grass, it grew breast-high, and in the fall of the year waved like a field of wheat. It grew everywhere, but about all is gone now except little patches that grow on railroad right-of-ways. Cattle thrived on the blue stem grass in those free range days. In the blacklands its deep roots made a heavy sod that no plow could turn. Later pioneer blacksmiths hammered out a special plow that turned up the blue stem sod when the plow was yoked to oxen. Even after being turned up, it was difficult to pulverize. That caused many settlers to move into the cross-timbers and break up the mellow sandy lands. Also in the sandy lands was enough timber to build houses, fences and supply fuel.

"The old Chisolm Trail ran right across this part of the prairie where my land lies now. The trail was not a road—just beaten paths a few feet apart—made by the hoofs of millions of longhorn cattle. The trail was anywhere from 3 to 5 miles wide. I have seen herds of 3,000 to 5,000 cattle going up the trail day after day. The cattle moved slowly—grazed their way from one water hole to another—which increased weight by the time they arrived at Northern markets.

"Following the herds and the cowboys would be the old chuck-wagon. That was the cowboys' 'boarding-house,' the only place they had to eat. At night they slept on their saddle-blankets under the blue sky. All extra clothing for cowboys and all groceries were carried in the chuck-wagon. If the wagon was lost while fording a stream—which sometimes happened—that was just plumb bad. There were no bridges over any stream. For man and beast it was sink or swim, perish or survive, when a stream was bank-full.

Wild Critters

"Cowboys sang to their herds at night to quiet them. Longhorns were wild critters. When bedded down at night on the trail they slept, if at all, with one eye open ready to stampeede at the drop of a hat. So the night-guard boys circled and sang to the herds. The song might be a simple ditty about somebody's sweetheart or just a drawling w-h-o-o-p-e-e, but it sounded reassuring to a nervous steer.

"There were no buffalo on the range in my time, and I'm glad I didn't have to witness the slaughter of these defenseless creatures by professional hunters, who killed for the hides and not for the meat. For years after the slaughter we cow-punchers rode our horses over miles and miles of bleached

Orleans was a big business in those days and gave employment to thousands

Third Year of World War II

By JAMES B. RESTON
(The New York Times)

THE third year of the war finds Germany fighting her former ally, Russia, and also Great Britain. While Russian resistance has been strong and courageous, the fact remains that the Nazis control an area in European Russia more than half as large as Great Germany, have captured Kiev, are at the gates of Leningrad, less than 200 miles from Moscow, deep within the Ukraine. Leningrad and Odessa have been under siege for weeks and may fall at most any time. However, Russian forces are still making savage counter-attacks in all the fighting areas.

To many observers it seems that Russia's chances against the Germans in a long war depend largely on the extent of material aid from the outside world. Prime Minister Churchill revealed that hundreds of British war planes were already being sent to the Soviet. In Washington a United States

caused concern in some London quarters because of its possible effect upon the position and attitude of Turkey and Bulgaria.

German Casualties

Moscow reported that capture of Kiev cost the Germans 150,000 casualties and that an equal toll of dead and wounded is being piled up by the assault on Leningrad where some Nazi divisions were said to be suffering casualties as high as 40 per cent.

In London, Soviet Ambassador Ivan M. Maisky summed up with a declaration that the Germans had lost 3,000,000 men in killed, wounded, captured or missing since the invasion, but acknowledged that Russian losses in industrial areas were serious.

While Hitler had failed miserably in his plans for quick conquest, the Ambassador said, Russia was up against a most difficult situation, and knew it.

In London, W. Averell Harriman concluded his conferences and stated that the British and United States missions

A Handley-Page "Halifax," one of the new four-engined bombers of the Royal Air Force Command, wings over England enroute on a mission of death and destruction in Nazi occupied territory. It's 70 feet long, with a wing span of 99 feet.

mission, charged with working out problems of supplies for Russia, left for London several weeks ago.

With Kiev fallen as the war entered its fourth month, Moscow tightened its precautions behind its barrier of fighting men.

Kiev, Russia's third city and administrative center of the Ukraine, was yielded to the Germans "after many days of fierce fighting," said the Russian high command.

It was the first major capture for the Germans since they invaded Russia and a serious blow to the Soviet, but the city of 846,000 population was given up in accord with the Russian plan of keeping the Red army on a fighting basis even at the expense of territory, Russians said.

The German advance in the Ukraine

had reached an agreement on immediate aid to Russia.

Bombers and fighters of Britain's Royal Air Force continue to carry out extensive daylight raids on Norway, Northwest Germany, Occupied France and the Netherlands coasts.

Attacks range for hundreds of miles along the Nazi-held coast of Europe and included a daylight raid by an American-built flying fortress plane upon the great Nazi naval base of Emden. British planes were also active in the Mediterranean zone.

The third year of the war finds the U. S. Navy convoying ships laden with American supplies and bound for England, Russia and China, with orders from President Roosevelt to "shoot on sight" any German raider, German sub-

Canyons of Texas

By VICTOR H. SCHOFFELMAYER
(Condensed from Texas Geographic Magazine)

AMONG the outstanding geographic features in Texas, none exceeds in impressiveness the many canyons carved out of the layers of rock and clay which have covered the surface of the State since remote times. In Texas may be found every kind of canyon characteristic of the Southwest and West, from the gloomy box type, with its narrow, perpendicular walls rising nearly 2,000 feet above the stream floor, to tree-lined ravines caressed by clear-running streams.

Water—especially storm water—is the principal force which sculpts canyons. In regions of little rainfall, sudden terrific downpours may hurl an avalanche of water, stones and even large rocks through the gorges in nature's continuing process of leveling the earth's surface. The canyons of Texas, are located within a region having an annual rainfall of from 10 to 25 inches lying west of the 100th meridian. The elevation of the canyon country varies from 2,000 to 5,000 feet above sea level.

Palo Duro and Tule canyons, in the Texas Panhandle, are a dual product of the forces set in motion on the High Plains ages ago. Together they drain thousands of square miles of territory reaching to and beyond the New Mexican border. The upper reaches of Palo Duro Canyon constitute the headwaters of Red river, which carries the silt and loam of the High Plains into the Gulf of Mexico. Red river derives its very name from the red clays stripped by erosion from the deeply-cleft Permian Red Beds.

Palo Duro and Tule canyons, in the Texas Panhandle, are a dual product of the forces set in motion on the High Plains ages ago. Together they drain thousands of square miles of territory reaching to and beyond the New Mexican border. The upper reaches of Palo Duro Canyon constitute the headwaters of Red river, which carries the silt and loam of the High Plains into the Gulf of Mexico. Red river derives its very name from the red clays stripped by erosion from the deeply-cleft Permian Red Beds.

MARISCAL CANYON, one of the three great gorges through which the Rio Grande flows between Texas and Mexico, shows the result of stream-cutting through a hard limestone plateau.

Horse Thief and Cherry, all of which are flanked by walls ascending to heights of 1,000 to 1,500 feet. In their upper levels they carry forests of western juniper, pinon pine, limber and ponderosa pines. Into these more or less forbidding canyons only burro trails lead, although recently efforts have been made to open roads from Balmorhea into their lower reaches.

The three principal canyons of the Rio Grande are: Santa Elena (formerly called Helena), the Mariscal, the Bosquillas, and Bofecillas. The great chasms are among the notable features of the Southwest, being deep, narrow and difficult of access. They arouse mostly sentiments of awe in those who brave a trip to that wild region in Brewster and Presidio counties, the southern tip of the Trans-Pecos country. But not all Texas canyons are awesome; many display a profusion of vegetation of unexpected beauty.

About 50 miles south of the Big Bend State Park is the mouth of Santa Elena Canyon, largest and most imposing of the Rio Grande chasms. The canyon has a length of twelve miles, and its walls reach a maximum height of 1,600 feet, almost perpendicular from the wa-

(Continued on Page 5, column 3)

Texas Defense Guard

THE Texas Defense Guard has grown so rapidly that it now is the largest in the United States. The guard has a strength of 14,000 infantrymen and nearly 500 air-men. When all the 200 companies of infantry and the air squadrons are at full strength the total enrollment of men who voluntarily are taking this means of helping prepare for the defense of the United States will be 16,000 men.

The Texas Defense Guard, created by an act of the State Legislature, has exactly the same duties to perform as the Texas National Guard when the older organization is in active service. Members serve without pay, and in fact must purchase their own uniforms.

Hard Candy for U. S. Troops

An announcement from army quartermaster depots discloses that, from now on soldiers will receive hard candy instead of chocolate fudge in their emergency field rations.

Until now, the dessert element in this canned ration has been a one ounce piece of "fortified fudge." In the future, however, it will consist of five individually wrapped pieces of hard candy, one each of lemon, lime, orange, butterscotch, and caramel.

"This type of candy maintains the blood stream sugar level longer because the hard candy will be consumed between meals and require prolonged mastication. The fudge was eaten in one gulp," the announcement explained.

Synthetic Rubber Output Climbs

E. R. Bridgewater, manager of the E. I. du Pont de Nemours and Company rubber chemicals division, says that the synthetic rubbers have been found superior to the natural product for many uses.

"Ten years ago a complete cessation of supplies of natural rubber would have stopped the wheels of most, if not all, of our industries," he said. "But since then our rubber manufacturers have adapted synthetic rubbers to thousands of uses for which they have been found superior to the natural product."

At least two of these synthetic products, he revealed, can be used satisfactorily in the manufacture of automobile tires.

"While the total production of general purpose synthetic rubbers during the current year will be only about 15 per cent of our crude rubber consumption, the future looks a little brighter. By the end of next year this country will have a capacity of 5,800 long tons per month of such synthetic rubbers. This production will be about 10 per cent of the country's total normal rubber requirements and developments are under way which might materially increase that figure," Bridgewater said.

Eggs, Fruits, Vegetables Prolong Life

For a long life and a healthy old age, you need to eat at least double the usual amount of eggs, fruits and vegetables, it appears from studies of rat diets reported by Prof. Henry C. Sherman, of Columbia University.

The ingredients in fruits, vegetables, milk and butter which contribute especially to a long healthy life are calcium and vitamins A, C and riboflavin.

A diet enriched with two to four times the amount of calcium usually considered adequate for normal nutrition, Dr. Sherman said, accelerates the rate of development, maintains a higher level of adult vitality with an extended prime of life, and increases life expectancy. The extra calcium does not result in hardening of the arteries, he declared, but does strengthen bone structure.

Massive Texas Bomber Plant

Generally believed to be the nation's largest aircraft plant, the Consolidated Aircraft bomber assembly building on the shores of Lake Worth, near Fort Worth, Texas, will stretch fourteen city blocks in length when completed around January 1, at a cost of \$10,000,000. Close to 3,500 workmen are now swarming over the steel structure.

Plant designs are now 80 per cent complete with actual construction 25 per cent complete, said Captain J. H. Anderson, constructing quartermaster. The same schedule is being held at a similar plant in Tulsa, Okla.

The plant will be virtually sound-proof. It will be acoustically treated to hold down the noise level and to absorb sound of high frequency. All of this, say experts, makes for better working conditions.

Adjacent to the bomber is a landing field that is being graded to the smoothness of a floor. It will measure a mere 1,850,000 square yards when complete.

Bombers of the B-24 type will be assembled at the Fort Worth plant, but Consolidated Aircraft officials recently asserted it was possible the mammoth B-32's also would be rolled off the line after production starts.

New Magnesium Plant

The RFC, through its Defense Plant Corporation, has just agreed to spend \$52,000,000 at Freeport, Texas, on the Gulf, to build another plant for the manufacture of metallic magnesium from sea-water. Magnesium, a very light metal, is as badly needed in national defense manufacturing operations as is aluminum.

The plant will be operated by the Dow Chemical Company, and will produce approximately 72,000,000 pounds of magnesium a year.

Dow started its own plant for taking magnesium from sea water before this emergency, and has had it in operation at Freeport since last June, a plant capable of producing 18,000,000 pounds of magnesium a year.

U. S. Army's Total Strength

Two milestones were reached simultaneously by the nation's rapidly expanding army on July 30, 1941, when total manpower of the armed forces passed the million and a half mark, while the officer strength reached the 100,000 mark. This is the first time since the period following World War I that the army has reached such strength.

The entire strength of the army more than doubled in the six-month period since January 30, 1941. At that time the strength of all components of the army was 750,000 officers and enlisted men, and the figures show that the force has been increased by 756,500 in the half-year period.

Of the total officer strength, the majority are those drawn from the Officers Reserve Corps. A total of 63,200 reserve officers out of an estimated eligible total of 106,600 now are on extended active duty. National Guard officers total 21,900 while the regular army officer strength is 14,900.

U. S. Taxes

Roger W. Babson, noted national economist, says: "In 1900 United States taxes were only 6 per cent of the national income. Between 1900 and 1929 taxes doubled to become 12 per cent of the national income. By 1941 taxes have become over 25 per cent of the national income. In 1900 it would have taken only \$150 of everyone's savings to wipe out the public debt. Today it would take about \$1,500 from every man, woman and child. Have we got it? Yet, they say, we must expect our government to run on a deficit for years to come. Neither politics nor socialism will win World War II."

War Effort of England's Women

Among the thousands of workers bringing in the wheat sheaves of Great Britain in September were many women from the cities—former maids, domestic servants, stenographers, shop-girls, students. They worked in cotton shirts, pullovers, overalls, breeches. They were members of the Woman's Land Army, helping to take the place of farmers now running army tanks instead of tractors.

The women of Britain are playing many other vital roles in the war effort. "Wrens"—members of the Women's Royal Naval Service—handle such shore jobs as naval accounting and work on codes and cyphers. Women dispatch riders in the army auxiliary roar across the countryside on motorcycles; others drive lorries, ambulances, staff cars. Girl pilots in smart "Air Force blue" uniforms ferry planes from factories to flying fields. Women serving with the Royal Artillery work A. A. range-finders and predictor apparatus. The million members of the Women's Voluntary Service fight incendiary bombs, sew, cook, manage clothing depots, run canteens. In armament factories girls

—some still wearing lipsticks, rouge and high heels as they work—turn out weapons of war.

Already the British government has listed for possible war tasks more than 1,230,000 women under 24.

Texas Ranks Fifth in Defense Bond Purchases

In May, June and July of this year Texans bought \$17,847,000 worth of United States Defense Savings Bonds, the U. S. Treasury announced. This covers only Serial E bonds, the smaller ones sold to the general public, and not Series F and G bonds sold to larger investors.

In only four other States were as many of these bonds sold. Californians bought \$21,476,000; Illinois, \$26,481,000; New Yorkers, \$76,077,000; and Pennsylvanians, \$23,199,000. Ohioans bought just a little less than Texans, a total of \$17,629,000.

Billions for Defense

The largest revenue measure in United States history was sent recently to the White House for Presidential signature. The bill called for the addition of \$3,553,400,000 to the nation's tax load. It had won Congressional approval after six months of consideration on Capitol Hill. Hearings on the measure began on April 22 in the House Ways and Means Committee, which worked on its provisions until late July. Both houses passed the bill by overwhelming majorities. A joint conference committee worked smoothly to iron out differences.

The bill as it emerged for Presidential consideration was expected to bring 1942 Federal revenue income up to the \$13,000,000,000 level. This, it was believed, would cover half of the vast expenditures envisioned for the next fiscal year, expenditures occasioned by the steadily expanding defense and lease-aid programs. The new revenues will come from three main sources—added excise taxes on goods and amusements, higher corporation taxes and increased personal income levies. In the latter category the bill imposes lower exemptions—which are expected to bring 2,265,000 new taxpayers into the fiscal picture—and higher rates. Examples of the heavier burdens that will fall on various income groups are given in these tables:

For Single Persons With No Dependents			
Net Income.	Present Tax.	New Tax.	
\$800.....	\$3.00	
\$2,000.....	\$44.00	\$117.00	
\$3,000.....	\$53.60	\$220.50	
\$5,000.....	\$171.60	\$482.50	
\$10,000.....	\$686.40	\$1,492.50	
For Married Persons With No Dependents			
Net Income.	Present Tax.	New Tax.	
\$2,000.....	\$6.00	
\$3,000.....	\$10.80	\$138.00	
\$5,000.....	\$110.80	\$375.00	
\$10,000.....	\$528.00	\$1,305.00	

Besides going deeper into the taxpayer's pocketbook, the bill also contains a provision designed to brake non-defense spending. An amendment added to the measure in the Senate calls for the appointment of a joint Congressional committee to sit with the Secretary of the Treasury and the Director of the Budget to study means of slashing such expenditures. Supporters of the amendment have contended a saving of \$1,000,000,000 should be effected.

Greater Crime Rise Among Women

Crime is increasing among women at a greater rate than among men, according to a survey made public recently by the Federal Bureau of Investigation.

Research by the F. B. I. showed that while there were far fewer women criminals than men, 9.1 per cent of arrests made by the F. B. I. in the first six months of 1941 involved women, compared with 8.2 per cent in the same period in 1940 and 7.1 per cent in the first six months of 1939.

"For all types of crime except commercialized vice," the bureau stated, "the number of men arrested was larger than the number of women. The men were particularly predominant in robberies, burglaries and automobile thefts."

"The figures revealed that, proportionately, women committed more murders than men. Of each 1,000 women and 1,000 men arrested, it was found that thirteen of the former and only ten of the latter were charged with murder."

"Similarly, in an average group of 1,000 of each sex, thirty women and three men were charged with narcotics violations."

Careless Smokers Threat to Forests

Texas Forest News: "Forest fires caused by negligent smokers have always been a big worry to forest protection forces. In the United States about one-fourth of all the fires are traced to smokers. In East Texas the average is nearer forty per cent."

"Tests show that cigarette butts burn longer than do those from cigars, and the possibility of their starting a fire is about three times greater. Considering the number of cigarettes used, they present ninety times more hazard than cigars."

"Authorities have found that cigarettes will continue to burn from 8 1/2 to 12 minutes after being discarded whereas cigars will not burn more than 5 minutes."

"Two solutions are put forth by forest service officials for cutting down on the smokers' fires. One method is by legislation and the other by education. Several States have already enacted laws particularly relating to the discarding of smoking materials from vehicles."

Fair Time

Autumn is fair time. State fairs, county fairs, country fairs, even firemen's fairs, blossom with the asters and chrysanthemums. Summer is over, the harvest is in, and mankind relaxes in a traditional celebration of the year's garnering. True, the sideshows, the carnival trappings and the gaudy hawkers often seem to predominate, but they are only a raucous symbol of celebration. At the core of the real fair are the prize cattle and horses and sheep and hogs, the blue-ribbon fruit and grain and vegetables, the choice pies and pickles and preserves, the needlework and handicraft, the school-boy art and the schoolgirl essays—the whole display of another season in mankind's fundamental industry.

The fair is essentially a folk celebration indigenous to the country. It makes a deep bow to the city guest and convinces him that he has renewed contact with the good earth when he has only been awed by the prize bulls, amused by foot races, weight-pulling contests, surfeited by buttered popcorn, hot dogs and animal odors, taken for a ride at the merry-go-round, the ferris wheel and the shooting gallery. But the fair really belongs to the farm folk who sells \$12 pork and \$13 beef to the city folk.

It varies, of course, from region to region. New England fairs put forward square dancing and oxteam-pulling contests. The Midwest dotes on its corn, its hogs and its harness racing. The Southwest dotes on its corn, hogs and pure bred cattle and, in addition, makes the fair a fiesta with Indian dances and rodeos. But everywhere it is a dazzle of daytime color and nighttime light, a clamor of barkers and bawling calves, a fragrance of hay and hamburgers and roasting peanuts. Squires pontificate, horsemen haggle, breeders boast, children get lost, courtships flourish, suckers get trimmed and everybody goes home worn to a frazzle. It's a dining, gaudy, uproarious gathering of American life and folkways, a very worldly thanksgiving set to the tune of a callopie. It's The Fair—and we love it.—New York Times Magazine.

Waste Paper

Because waste paper is used in the making of ammunition and for other vital needs its collection is now an essential industry. Boy Scouts to the number of 1,500,000 were called upon recently by OPACS to assist in collecting waste paper throughout the United States. Old newspapers are put through a bleaching process to remove the ink; then the paper is repulped and is ready to serve all over again.

Grass Root Reveries

THE fall of the year makes some people melancholy—they feel sad over the loss of flowers, leaves and grass. But autumn, a vital part of the year, has beauty as well as spring. What is prettier than trees of gold, scarlet and russet, or sunflower patches, or morning glories. I get inspiration from morning glories. They perk up at night and greet me dawn with a glorified beauty. Yes, indeed, autumn's a vital part of the year, a time of fruition, of gathering in the sheaves.

"Gathering what the worms left of the cotton."

Now that Old King Cotton is tottering on his throne, the best brains of the country are trying to find a substitute crop. I have found it. This substitute crop has been with us always, but not fully appreciated. It is the black-eyed pea. Many men, women and children might have starved to death had it not been for this unsung legume. In my boyhood days we had but one variety and it was called the "whipporwill pea," and I could plow all day and jump a 10-rail fence at night on a diet of whipporwill peas and corn pone. Black-eyed peas contain 200 kilowatts of vitamins; they taste good and will grow anywhere under the worse weather conditions. Furthermore, no boll weevil or specklator ever goes monkeying around in a pea patch. All other friends may forsake you, including those nearest and dearest, but the black-eyed pea is a faithful friend unto death.

Well, we have been gathering what the worms left of the cotton. The

worm does his job in a most thorough and business-like manner. In fact, the much despised worm could teach us a thing or two in thrift and industry. For instance, I have noted that the worm pays no attention to working hours—to an 8-hour day or a 5-day week. He works from daylight to dark each day. Maybe that's the reason he is such a howling success. At any rate, men have never been able to compete with worms. I found that to be the case in my cotton patch. I poisoned in one day 10 million worms on 10 acres of cotton. Next week there were 10 million more worms on that 10 acres of cotton.

They tell us that defense priorities has taken up all zipper material and we must go back to the old-fashioned button. That will slow us down some. People who dress in a hurry to go to work will have to get up earlier each morning in order to button all their buttons. Women used to zip their clothes on in about three zips. Now they will take at least 10 minutes to button up everything. For all we know, if this war lasts 10 years, as has been predicted, we may all be riding in ox-carts and buggies.

It's funny how public sentiment changes. Take Charles Lindbergh, for example; there was a time when Charles was about the most famous man in America. Thousands named their babies, bull calves and hound pups after him. Now they look at him with stony eyes. Few men ever live to enjoy their fame, and most men are dead a long time before fame places a wreath on their tombs. If I ever become famous—and I see no chance—I hope it will

happen while I am alive and that the babies, bull calves and hound pups named after me will beat a pathway to my door so I can see what they all look like.

Admittedly, the more civilized we become the more padlocks we need. I can remember—when Texas was less civilized—that few people locked up anything. Now they put locks not only on henhouse doors, but on spare auto tires. The other day I ran across a garbage can chained and padlocked to a tree. Why anybody would steal an old garbage can is beyond my calculations. Strangely enough, as civilization continues to advance and we build better churches and better schools, we have to build better locks. There are locks that cost \$2.50 each and other locks that cost \$3.50 each. Even these expensive and complicated locks, say police, are no surety against theft. All of which proves that we have some very brilliant men in the thieving business.

Courts are in session all over Texas trying to convict men who transgress the law. Usually there is one conviction for every four or five offenses. What's the use of passing laws if they are not enforced? The last Texas Legislature cost taxpayers one million dollars, and it passed over 600 laws. At the rate of convictions, about 200 of these 600 laws will never be enforced. I was one of the Legislative members who helped to pass some of the 600 laws, but frankly, I am not proud of the record.

There are bosses who will not hire a man 40 years old. They want younger men. Statistics show that young men have helped to bankrupt more businesses than old men. Some of our ablest executives are past 50. It takes brains as well as brawn to get a job done. If I were picking men for jobs that required thinking and tact I would first pick men who had raised honorable children on little money, or who had collected the pastor's salary, or who had balanced a lean budget.

THE AMERICAN FAMILY . . . By George

"Nice parade we had! Don't pay any attention to me . . . go right on with your music."

BRIEF TEXAS NEWS---from Over the State

517 ROADSIDE PARK SITES
The Texas Highway Department reports it has 517 Roadside Parksites and that 445 of these sites have been improved.

TITANTIC TEXAS
Bert Nash in Midlothian Argus: "Texas, placed end to end east and west would extend 60 miles into the Atlantic Ocean and 200 miles into the Pacific Ocean."

FARM BUREAU MEET
This year's convention of the Texas Farm Bureau Federation will be held December 2 and 3 at Fort Worth, it was announced by General Manager E. R. Alexander.

209 STITCHES CLOSE WOUND
Physicians took 209 stitches to close a gash on the head and face of Mike Liles, age 19, Marshall high school senior, who was injured critically in an automobile collision nine miles north of Marshall, (Harrison county).

EXPENSIVE QUAIL
Justice of the Peace Homer Cantrell, of Weatherford, (Parker county), fined a hunter \$61 for killing a quail out of season, which brought the bird to approximately \$15 an ounce.

75-YEAR-OLD WALNUT TREE
A black walnut tree 75 years old and six feet in diameter at the base stands in the yard of R. E. Sparkman, of Italy, (Ellis county). The tree yields from 10 to 20 bushels of excellent walnuts annually, said Sparkman. The tree grew from a single walnut planted in 1852.

FIRST AIRPLANE RIDE AT 95
Mrs. Mary Zinn, of Big Spring, (Howard county), took her first airplane ride on her 95th birthday and enjoyed it. "I took my first ox-cart ride when I was 16, from Pettus county, Mo., to Cass county, Texas. Today I had my first airplane ride," said Mrs. Zinn.

HISTORIC CEMETERY
Historic Fort Houston Cemetery, laid out in 1835, in Anderson county, will be rehabilitated by the Palestine Chapter of the Daughters of the Republic of Texas. In the old cemetery are the graves of 17 persons who were killed in the war with Mexico and in Indian battles.

REVOLUTIONARY TYPE SHIP
The U. S. Navy announced a freighter ship of revolutionary design has been produced at the Orange, Texas, ship building yards. Light in weight, simple in construction, relatively cheap, the Navy said it could challenge the submarine and provide "a new bridge from this country to the free nations of the world."

CIGARETTE TAX
Cigarette stamp tax sales in Texas during the fiscal year, ended August 1, according to State Comptroller George Sheppard, totaled \$7,949,288, an increase of \$752,104 over last year. This represents 278,016,974 packages of cigarettes, or 860 cigarettes for each man, woman and child in Texas in one year.

CHAMPION CORN PULLER
Henry Kamensky, husky farmer living near Granger, (Williamson county), is again Texas' champion corn puller. He retained his title in the annual competition which was a high light of the second day's program of the fourth annual Texas Corn Carnival held at Granger in September. Kamensky pulled 332 pounds of corn from long rows in 15 minutes.

EGYPTIAN COTTON GROWN NEAR EL PASO
An estimated 35,000 acres of Egyptian long staple cotton is maturing in the irrigated Rio Grande Valley area near El Paso. Production is placed at 240 pounds per acre with a staple length of about one and one-half inches and an average price of 30c per pound on the present market.

CARELESS SMOKERS A FIRE HAZARD
Thirteen times as many fires were started in Dallas in August by tobacco smokers as were caused by defective wiring or incendiaries, the monthly report of the Dallas Fire Department showed. Thirteen of the thirty-three fires in the city were started by careless smoking, only one each was traced to bad wiring or incendiaries.

SONG WOES AND WINS HUSBAND
Genevieve Haney, of Dallas, knits sweaters for British Relief Society. Recently she wrote a song, entitled: "I'm Sitin' and Knittin' for Britain." John Rumboil, Royal Air Force cadet, training in Texas, was impressed by the song, sought an introduction to the authoress and, after a brief courtship, they were married. John was given a 24-hour leave from his training base for the honeymoon.

TRAIN STUCK IN HIGH GRASS
A Katy passenger and mail train got stuck in the grass while on a siding near Albany, (Shackelford county). Heavy rains this spring and summer are responsible for the tall grass.

\$4,000,000 FOR ROAD IMPROVEMENT
Senator Tom Connally has been informed of Presidential approval of a \$4,000,000 WPA allocation to the Texas Highway Department for general improvement of roads throughout the State.

AID FOR DEPENDENTS
Federal Security Administrator Paul V. McNutt announced from Washington that the Social Security Board has approved the Texas plans for aid to dependent children and to the blind. Jointly financed by the State and Federal governments, the program will average \$8 a month to be paid for each dependent child and \$20 monthly for each blind recipient.

FARM REPAIR PARTS LACKING
B. F. Vance, chairman of the Texas U. S. D. A. Defense Board, said farmers are having difficulty in obtaining repair parts for their farm equipment in more than half of the counties in the State. The board is conducting a survey on the request of Secretary of Agriculture Claude R. Wickard on the farm equipment needs for the coming year.

DEER PLENTIFUL IN BLANCO COUNTY
Deer are fat and plentiful in Blanco county this year, ranch men report. It is estimated that 2,500 buck deer and turkey were killed by hunters in this county last year.

45TH YEAR AS PASTOR
Dr. George W. Truett, under whose leadership the First Baptist Church of Dallas has grown from a membership of 715 to more than 8,000 in 44 years, began his 45th year as pastor of this church in September.

"V" FOR DEFENSE
C. E. Outterside, of Galveston, exchanged 500 nickels he had saved for a \$25 defense bond. Each nickel was an old-fashioned one with a huge "V" on the reverse side.

PITCHING ARM STILL GOOD
Bay City Tribune: "Twenty years ago, Farmer Boy Mitchell, now of Bell county, pitched big league baseball. Recently he demonstrated that he has lost little of his speed and control. Wildcats had been lurching off Mitchell's goats and pigs. When he happened upon one of the big cats he was unarmed, but he maneuvered it into a corner and threw a rock at it, killing it almost instantly. Mitchell pitched for several big league clubs, including the Cincinnati Reds."

TURKEY CROP REDUCED
Adverse weather has reduced Texas' 1941 turkey crop to an estimated 3,190,000 birds, compared with 3,843,000 raised in 1940, the U. S. Agricultural Marketing Service reported. Heavy spring rains and cold nights prevented a good hatch of turkeys in Texas and caused an unusually high mortality. The result probably will drop Texas from first into third place among the turkey-raising States, behind Minnesota and California.

1940 GRAPEFRUIT HARVEST
Texas harvested 501,270 tons of grapefruit in 1940 to become the second State in the nation in grapefruit production, according to figures released by the Bureau of Census of the U. S. Department of Commerce. Florida led the nation in grapefruit production, harvesting 592,685 tons of the fruit from 13,535 farms. Texas had 4,621 grapefruit farms, according to the census report. California was third with 81,899 tons of the fruit harvested during the 1940 period.

COTTON STOCKING PETITION
Lufkin News: "A petition signed by 40 women instructors expressing 'our anxiety to participate in the national defense program' was handed to superintendent I. A. Coston, of Lufkin's public schools. 'It read: 'May we wear cotton socks to school?'"

TRADITIONAL THANKSGIVING
Governor Coke Stevenson has announced the fourth Thursday in November Thanksgiving Day in Texas. The Governor said he believed the traditional date would please most Texans. The date falls on November 27th.

13,272 TOURIST
Operators at eleven courtesy stations widely scattered throughout the State report that 13,272 out-of-State tourists registered at their stations this spring and summer. More autos were registered from California than any other State.

SAVES FEED BILLS
Tom Bean Times: "W. T. Harris rigged up a gas flare over the chicken yard of his home in Olney, (Young county). 'The chickens get up at night to eat the bugs that gather under the flare and it sure does save feed bills,' said Harris."

CASTOR OIL MILL
Completion of the first castor oil mill in the Southwest, at Brownsville, and the first to produce castor oil from domestically grown beans anywhere in this country, was announced by M. D. L. Van Over, who has been working on the project about three years. Lower Rio Grande Valley farmers planted 1,500 acres to castor beans this year and the crop is estimated at 500,000 pounds. The plant already has orders for more castor oil than it can produce this season, Van Over said.

HE WOULD JOIN MARINES—George Allen Walker, age 14, of Arlington, Texas, chats with Lt. Col. John Groff, U. S. Marine recruit officer in San Diego, Calif. He wanted to join up.

TALE OF TWO GLASS EGGS
Lufkin News: "A Texas Forest Service employe near Kirbyville, (Jasper county), has discovered what happened to two glass eggs he put in a hen nest and which disappeared from his hen house. He found them beside the skeleton of a snake which apparently couldn't digest them."

LATE CENSUS TABULATION
Rural Texans still outnumber city Texans, 3,435,367 to 2,911,389, but the difference was shrinking rapidly, according to late 1940 census figures. The urban 2,500, was up 21.8 per cent from 1930. The rural figure represented an increase of only two per cent. Latest census tabulations on all Texas cities of more than 25,000, including percentage of increase or decrease compared with 1940 follows: Abilene 26,612, 14.8 per cent; Amarillo 51,686, 19.8 per cent; Beaumont 59,016, 2.3 per cent; Corpus Christi 57,301, 106.6 per cent; Dallas 294,734, 13.2 per cent; El Paso 96,810, minus 5.5 per cent; Fort Worth 177,662, 8.7 per cent; Galveston 60,862, 15 per cent; Houston 384,514, 31.5 per cent; Laredo 39,274, 20.4 per cent; Lubbock 31,853, 55.2 per cent; Port Arthur 46,140, minus 9.4 per cent; San Angelo 25,802, 2 per cent; San Antonio 253,854, 9.6 per cent; Tyler 28,279, 65.2 per cent; Waco 55,982, 5.9 per cent; Wichita Falls 45,112, 3.3 per cent.

HORSESHOE FOR LUCK
A horseshoe has been nailed above the door of Governor Coke R. Stevenson's private office in the State capitol building, Austin. "I have put it there for luck," the Governor explained.

FFA CONVENTION TO SERVE TEXAS BLACKEYED PEAS
Grapeland, (Houston county), will furnish blackeyed peas for the banquet to be given at the national F. F. A. convention in Kansas City, Mo., in October, according to J. C. Shoults, Grapeland vocational teacher.

TEXAS LONGHORN STEER FOR U. S. ZOO
A typical Texas longhorn steer, sought for years by the National Park Zoo in Washington, D. C., has at last been found. T. T. East, rancher of Hebronville, (Jim Hogg county), donated the steer to the Zoo. It is 12 years old, weighs 1,200 pounds and has a horn spread of 8 feet.

"SLOW POKE" DRIVING UNLAWFUL
Texas' new speed laws have this significant paragraph: "It shall be unlawful for any person to operate a vehicle upon the public highway or streets so as to wilfully obstruct or impede the normal movement of traffic. Police are authorized to enforce this provision by directions to drivers."

STRANGE PET
Dr. Leo T. Murray, curator of Baylor University Museum, Waco, has a strange pet. It is a big tarantula named Oscar, captured by Murray in Oklahoma and brought to Texas in a glass bottle. "Tarantula bites are not poisonous, they are just infectious," said the curator. Oscar's diet is two crickets a week which he eats out of Murray's hand.

COURTEOUS DRIVING
The Texas Safety Association has set up six rules for good and courteous driving which are:
1. When some driver insists on the right-of-way let him have it.
2. Watch out for the driver who tries to beat the traffic light. Let him risk his life to save a few seconds, but don't risk yours.
3. When a driver passes on a hill or curve, or misjudges the distance ahead, slow down and let him get in line.
4. If a driver behind is over-anxious to get around you, pull over and let him pass before he takes a chance and involves you in an accident, too.
5. At night, dim your lights for approaching cars.
6. Don't expect the right thing from the other fellow, always give him a break, even when he is wrong.

STATE GASOLINE TAX
State Comptroller George Sheppard issued a report that Texans paid \$51,606,359 in gasoline tax money this past year. The amount is \$5,659,000 more than was paid last year. Total amount of gasoline on which taxes were collected was 1,290,158,000 gallons.

HAY FEVER CONTEST
Galveston will select a hay fever king and queen on October 14 for its fourth annual Hay Fever Contest. In line with the program of this novel contest to promote Galveston as a hay fever resort, all out-of-town hay fever sufferers will be invited as complimentary guests at a luncheon to be given by the Galveston Kiwanis Club.

HITCH-HIKING HEN IN NEWSREEL
A hitch-hiking hen, made famous by stories of her riding adventures that have appeared in the Madisonville Meteor, (Madison county), is now in the movies. Pictures of the hen have been made by a Universal Newsreel cameraman, and her riding stunts will go on the screen throughout the nation. The hen, owned by Mr. and Mrs. Jay Grizzle, of near Madisonville, hops into the auto when it starts to town and stays around it until it is driven back home. Sometimes the hen does her bit for national defense by laying an egg in the auto.

OLD AGE PENSIONS HIGHER
Texas old age pension rolls reached an all-time high for September with payments going to 150,944 persons. Average payment also was slightly higher, Director J. S. Murchison said. In August approximately 148,350 pensioners received an average of \$18.56.

BIRTH OF SQUIRREL MONKEY BABY
A squirrel monkey baby, weighing less than two ounces, was born at Hermann Park Zoo, Houston. It was the first squirrel monkey born in the South, according to Zoo Director Hans Nagel. The parents of the zoo's newest baby came from Brazil.

THIRD YEAR OF WOLRD WAR II
(Continued from Page 2)
marine or German bomber that attacks these convoyed ships.

Hitler Preparing for Winter War
It is certain that Hitler is preparing for a long winter war with the Red Army. Furriers and clothiers throughout the Reich and occupied lands have been mobilized to make warm clothing for Reich soldiers stationed in Russia when the snows come.
The most conservative observers analyzing the chances of combatants at the start of the third year seem to agree on one point. They think that the advantage still lies with the Germans and will remain so at least until late next summer.
They point out that by starting five years ahead of her enemies in her industrial, diplomatic and psychological preparation for war; by clearing her military mind of the old techniques of mass trench warfare; by adopting, developing and producing en masse the airplane and the tank, which were invented and then overlooked by her enemies, and by integrating her diplomacy, her propaganda with her war machine, the Germans have gained control of the entire Atlantic coast of continental Europe from Narvik to Bayonne—a fact which is at once Germany's greatest strength and Britain's greatest weakness.
By diplomacy backed by threats of war, she has gained the control of Austria, Czechoslovakia, Denmark, Bulgaria and Rumania; by diplomacy likewise she has gained the effective co-operation of Finland, Spain and Sweden, and by force of arms she has secured the domination of Norway, Holland, Poland, Belgium, France, Yugoslavia, Greece and a great part of European Russia.

Bolster German Supplies
These conquests have bolstered her supplies, and protected the industrial machine which is the arsenal of her Army and Air Force. Hitler has the conquered countries under his thumb and is compelling them to make much of his war materials.
And, furthermore, Germany is situated at the hub of Europe from where she can move rapidly over secure lines of transportation to attack an enemy.
Germany has many other advantages which can merely be mentioned here. She has given her people a persuasive, if spurious theme song: that security lies at the end of this war. She has gained the support of Italy, which holds a large part of the British fleet in the Mediterranean, and the support of Japan, which so far has neutralized a great part of the seapower of the United States; and, unlike the democracies, she does not have to take time out to persuade her industrialists and her labor unions (if she had labor unions like the United States and Great Britain) to co-operate in the armament program which the German leaders think is best for the German people.
After two years of war, Germany's greatest weaknesses are still her lack of certain raw materials essential to the full production of her industrial machine, and her lack of sea power capable of transporting her great armies over long stretches of water.
The British have done a lot of wishful thinking about Germany's industrial shortages, but undoubtedly the English naval blockade had a great deal to do with Germany's decision to gamble on the Russian war.

The McCoys

A LITTLE FUN Jokes to Make You Laugh

Up to the Minute

Great Aunt: "Have you a bit of your grandmother's lace to wear with your wedding gown, my dear?"
Bride: "No, but I'm carrying grand-ma's cigarette case."

Careful

The woman autoist posed for a snapshot in front of the fallen pillars of an ancient temple in Greece.
"Don't get the car in the picture," she said, "for my husband will think I ran into the place."

Heaven and Hell

Jimmy: "When I die I'm goin' to heaven."
Tommy: "What makes you think you're going to heaven?"
Jimmy: "'Cause ma calls me a little angel."
Tommy: "That proves nothing. My ma calls me a little devil, but that don't mean I'm going to hell."

Deflated

He (egotistically): "Yes, sir, I can marry any girl I please."
She: "Maybe you could marry any girl you please, but in this whole town I don't know of any girl you could please."

One for the Ladies

Man criticizes woman for her extravagance, but she never wastes one dollar's worth of shotgun shells to get one dove.
Nor goes into a restaurant and buys a 25c meal and gives the waitress a 25c tip because she smiles at him.
Nor buys a dollar's worth of minnows to catch one poor little fish.

Labor-Saving Idea

Housewife: "Yes, indeed, I've got my husband where he eats out of my hand."
Guest: "Saves a lot of dish washing, doesn't it?"

Desected

The janitor was escorting the new preacher around the church.
"And this church is strictly nonsectarian, I understand," remarked the minister.
"Yes, sir," replied the janitor, "we whitewashed it from foundation to steeple and I don't believe there's an insect left in it."

Down on the Farm

"How are things down on the farm?"
"Well, dad's doing quite well on his barbecue sandwich stand, but he's just about breaking even on his gas and oil."

Poultry News Painting Roosts Poultry, Eggs

Painting the Roosts
Painting the roosts, dropping boards or dropping pits with carbolineum, creosote, or old crank case oil will prevent the appearance of mites for at least six months or a year. If the walls around the roosts are made of boards having numerous cracks where mites can hide, they should be painted also. If possible, leaving the house stand idle for two or three weeks before bringing in the pullets is a good plan.
In the case of dirt floors or cinder floors, removing the upper surface of the floor and replacing it with a fresh layer is one of the most important steps in cleaning such a house. Dust and dirt nearly always accumulate in ventilating shafts and intakes and they should be cleaned carefully.

Poultry and Eggs

The poultry industry of the United States is widely distributed on American farms; in value of output it ranks next to the meat and dairy industries. Its products are used almost exclusively as human food.
For many years the farm poultry enterprise centered in and around the corn belt, in the region of cheap feed. In recent years, however, there has been a marked tendency for poultry production to centralize in commercial areas, notably around the northeastern coast cities, the large industrial centers of the Midwest, and the San Francisco and Los Angeles areas of California, and in the Puget Sound area of Washington.

Protect Flock Health

Good flock health will be especially important this fall and winter when all emphasis is being put

on maintaining a high production of eggs.
Looking forward, it is desirable to begin laying plans now for controlling, insofar as possible, the frequent occurrences of colds and roup. Complete rations; airy, well-ventilated houses without drafts; and freedom from worms and other parasites, all are factors in preventing colds.
In flocks where colds are customary every fall and winter, it may be desirable to try vaccinating with mixed bacterin as a means of prevention.
But once colds do break out, however, the use of inhalants, including chlorine preparations for dusting over the birds, offers about the best means of providing relief.

Quality Eggs

Not only because eggs are profitable, but also because more good eggs are needed in the "Food for Defense" program, it is more important than ever that eggs be handled carefully to preserve their quality. Gather them often in wire baskets, take them at once to a cool, humid basement or egg room where they can be cooled quickly, then market them at least twice weekly.

Stick to Good Feeding Program

Selecting a good laying ration and feeding program, and sticking to it, is something that many poultry keepers fail to do. After the pullets are housed, we like to keep them on growing mash for a week or so, then switch to a laying mash.

In feeding pullets, every effort should be made to encourage feed consumption and body maintenance.

Souvenir

During the height of his fame, Oliver Wendell Holmes was the guest of an Eastern hotel for a few weeks. When he checked out the hotelkeeper asked if he would not write something in the hotel register as a souvenir of his visit. "With pleasure," replied the great American poet, and wrote as follows: "I was told to come to this hotel for change and rest. The waiters got the change and the landlord got the rest."

Two Kinds of Beans

Bobby (Squeezing toothpaste from the tube): "How much can I take, mom?"
Mom: "Oh, just a little. About as big as a bean."
Bobby squeezed the tube and out shot the paste.
Mom: "Oh, not so much. I said as big as a bean."
Bobby: "Well, mom, this is a string-bean."

Fable of Ox and Mule

An Ox and a Mule worked at the same plow. One day the Ox said, "I do not think I will work tomorrow; I will play off sick."
The next day when the farmer arrived he found the Ox lying down. He gave him a kick or two, and, finding that the animal would not get up, he gave him some fresh straw, a pail of oats and some clear water.
That night, when the Mule returned from work, the Ox said, "Did the farmer say anything to you about me?"
"No," said the Mule.
The next morning the farmer again found the Ox lying down. He took the Mule out to work. The Mule pulled the plow all by himself, and when he returned that night he was very tired.
"Did the farmer say anything to you about me today?" asked the Ox.
"No," said the Mule, "he did not say anything to me, but I saw him talking a long time to the butcher, and I heard him say: 'Ok, you can have that d—n Ox for \$15 if you'll take him off my hands now.'"

Home Product

Little Sister: "Ma, where was I born?"
Mom: "In the hospital, dear."
Little Sister: "And where was Billy born?"
Mom: "In the hospital, too."
Little Sister: "Where was Jimmy born?"
Mom: "Right here at home."
Little Sister: "Oh, then, he's a home-made baby, isn't he?"

Matter of Locale

Alkali Ike: "That word means fight where I come from."
Rattlesnake Pete: "Well, why don't you fight then?"
Alkali Ike: "Cause I ain't where I come from."

WAR BABIES By Schlensker

"Now I know why they're called 'Buck Privates.' They never spend more than a dollar on a date."

Canyons of Texas

(Continued from Page 2)

ter's edge. At its narrowest the gorge is less than 100 feet wide. Ranchmen of the region tell many tragic stories of hardy adventurers who were caught in the canyon's depths by raging waters following cloudbursts.
Following U. S. 62 northward to Carlsbad Cavern, the traveler can see on his left, part of the way, the eastern escarpment of the Guadalupe range in far West Texas. Soon there are glimpses of the entrance to Smith Canyon, a narrow, rugged gorge, and farther on is beautiful McKittrick Canyon, one of the finest in Texas. There are three McKittrick canyons—the main canyon, and South and North McKittrick—are filled

with the mixture of dense desert vegetation and high-altitude forest peculiar to the semiarid Southwest.

In the main McKittrick Canyon the steep walls rise nearly 2,000 feet from the meandering stream bed. Here yuccas, agaves, ponderosa and pinon pines, Douglas fir, dwarf walnuts, etc., grow profusely.

Unforgettable Experience

In an easterly direction from Alpine and Marathon, in Brewster county, stretches Big Canyon, draining the great flats at the foot of Cathedral Peaks. In length it leads all other Texas canyons, though its walls are neither so sheer nor so high as those of many smaller canyons of West Texas. It is known to few besides the ranchmen and sheepherders of this thinly settled re-

ASK FOR ME AND GET A NON-CAKING PLAIN SALT!

MORTON'S FREE RUNNING SALT

WHEN IT RAINS IT POURS

PLAIN — OR IODIZED

gion, one of the wildest in West Texas. To be on its brink some evening at sunset and to see the purple shadows lengthen over the vast broken plateau, the higher crests reflecting the rose tints of a sun vanishing in mists of mauve and cobalt blue, is an unforgettable experience.

The most accessible canyon country is the Edwards Plateau of Southwest Texas carved by such streams as the Frio, Nueces, Medina, Devils River, Pedernales, Llano, San Saba, Guadalupe and Pecos.

Today the Edwards Plateau is the home of the great Texas sheep and goat-ranching industry, which has an annual turn-over of \$50,-000,000 and supports the most prosperous single group of rural people in forty-three counties west of San Antonio and Austin. It is one of the most appealing regions, outstanding in its pastoral beauty and reminiscent of the Champagne district of France.

It is only hoped that the glimpses of the canyons of Texas presented in this article may have aroused in the reader a desire to become acquainted with some of these outstanding types of Texas natural beauty instead of driving several thousand miles to find in

Colorado, Wyoming or on the Pacific Coast what might be enjoyed nearer home.

BUFFALO BILL

Many people have been skeptical about the life of Buffalo Bill (whose true name was Bill Cody) because of his long years of touring with wild west shows and the consequent extravagant publicity. But the facts are that Cody's life was pretty nearly what the press agents said it was. Born in Iowa, Cody went to work at 11 tending horses in a supply train, after his father died. He had various riding jobs (including an appointment to the Pony Express). Then at 17 he was a cavalry scout against the Kiowas and Comanches. In the Civil War he was a scout in Tennessee and Missouri. He earned his famous nickname in 1867-68 by supplying buffalo meat to a railroad construction company. Then he returned to scouting.

POOR HEARING?

TEXAS FARM NEWS REPORTS

H. H. Cherry, of the Percilla community, (Houston county), reports he harvested a 100-acre crop of sunflowers on land that he termed worn out. He expects to net \$15 per acre from the sale of seed. The well-filled sunflower heads are from 5 to 8 inches in diameter. Mr. Cherry said his land has been in cultivation more than 75 years.

Count's Belle of L. P. 1058222, purebred Jersey cow, made a record of 992.36 pounds butterfat, 17,213 pounds milk in a 365-day test. This is the highest butterfat yield so far made by a Texas Jersey cow in a year's test, authenticated and accepted by the American Jersey Cattle Club. The new champion producer is owned by Herman F. Heep, Buda, (Hays county), and was bred in the herd of the Las Palmas Jersey Farm at Hebbronville.

Twin calves are not particularly odd, but when they arrive in separate months stockmen concede that it's somewhat of a rarity. Such was the occurrence at the Parker Baum farm, near Cross Plains, (Callahan county), recently. A 9-year-old Jersey cow gave birth to a fine heifer calf on the last day of one month and dropped a slightly larger bull calf on the second day of the following month. Both calves are normal in every respect, Mr. Baum reports.

Indicated yield of the Lower Rio Grande Valley's 8,000,000-tree citrus orchards for the 1941-42 season has risen from 54 boxes per acre last year to a probable 56 boxes per tree for the new season, according to estimates released by the U. S. Department of Agriculture.

The Texas pecan crop this year will be about 30 per cent of average because the trees are resting after last season's bumper yield, says J. L. Rainey, nurseryman of San Angelo, (Tom Green county), and San Saba, (San Saba county). Along the rivers of West Texas the crop will run about 20 per cent of average, he added. Rainey said it's an old pecan tree custom to rest a year or two after turning out a good crop.

According to report, Dan Madole has a calf which he has trained to lay down when being treated for worms. At the first treatment, Mr. Madole roped the calf, threw it down and tied it. The next time when he twirled the rope the calf immediately lay down before the rope was thrown. Now when it's time for treatment, Mr. Madole merely has to pick up the rope and the calf trots up and lays down.

Peter Heinz, of Brownsville, (Cameron county), has transplanted a Mexican vine in Rio Grande Valley and, by various treatments, has caused it to yield a large amount of raw rubber. Its juice, or latex, according to governmental tests, contains 76.3 per cent rubber. The plant is similar to the Madagascari rubber vine which is common in the Valley. If further development of the plant proves satisfactory, it may furnish an unlimited source of potential raw rubber.

Plans for soil-conservation exercises on 3,500 acres of McLennan county farm land have been approved. Upon completion of the work, the county will have had 7,500 acres scientifically treated during a 2-month period, N. J. Riley, soil conservation specialist said.

It is reported Jeff Owens, of Ozona, (Crockett county), paid \$1,005 recently for a Rambouillet yearling ram consigned by a Fort Stockton breeder. The price paid was the highest in Texas in more than a decade, according to breeders.

FATHER TIME IN PERSON—Meet Walter Gaskin, 80-year-old farmer of Mendon, Mass., who has been working in the same hay field since he was 12 years old, and still likes it.

About one-half million Texas cotton growers will exchange an estimated \$8,000,000 of cotton stamps this year if they use all they qualify for, B. F. Vance, administrative officer of the State AAA, has announced.

Mrs. J. C. Calloway, of Woodlawn, (Harrison county), is the owner of a six-month Jersey bull which was born with five legs and six feet. The bull hobbles around on three legs, and is apparently normal in other respects. Such a freak is born only "once in several million," states Dr. Burks Wilmore, veterinarian.

Stock raisers in Llano county say there has been so much rain this season that there is too much grass. A new range problem has been presented by the grass which has grown faster than the cattle can eat it. Cattle have found the grass too tough to chew, and stock choke on it. Some ranchers use wire hooks as disgorgers.

Mrs. J. D. Robertson, of the Pecan Grove community, (Coryell county), has made a business of carding wool in her spare time at home. She has carried on this activity at home for the last 8 years, and has earned enough cash to go a long way toward putting two children through high school and sending one to college. Mrs. Robertson made approximately 250 or more wool comfort batts since 1932, according to report.

Governor Stevenson has issued a proclamation setting aside the week of October 19 to 25 as "Yam Week in Texas."

A recent survey shows that the production of milk in Texas is up 14 per cent as compared with last year, according to E. R. Eudaly, Extension Service dairyman.

"Our total yield of cantaloupes this season will run around 20,000 bushels," said B. Frank Bass, of McKinney, (Collin county), one of the foremost cantaloupe growers in North Texas. He planted 100 acres to cantaloupes this year, and has marketed about 10,000 bushels.

This year Brazos county will produce approximately 1,700 full bred baby beef or broad-breasted turkeys which will come from 10 flocks. Last year there was only one flock of pure bred birds of this type which produced about 650 birds. As a result of improved stock, there will be at least 7,500 properly finished turkeys in this county this fall, compared to about 2,500 last year, growers predict.

In Raffaello Dolfi's backyard in Galveston, (Galveston county), is a botanical sideshow strange enough to interest any gardener. He has a tree that grows both grapes and figs. On another tree are three different varieties of figs, and there is another specimen that grows both tomatoes and eggplants. Mr. Dolfi explains that it's all done by grafting—with nothing but a pocket knife and a piece of string.

Fred Herling, of Brazos county, is practicing a low-cost method of increasing the area in grass on his 2,400 acres of woodland near Kurton. Herling has deadened about 1,000 trees in the past few years at an expense ranging from 50 cents to \$11 per acre, depending on amount of underbrush to be cut. The deadening is done with a home-made poison solution after underbrush is cleared and limbs cut to a height of 9 feet.

The U. S. Forest Service plans to start work shortly on an 1,800-acre plantation longleaf pine on an area about 2 miles west of Groveton, (Trinity county). Preliminary work consists mainly of construction of 13½ miles of hogproof fencing to enclose the area. Actual planting will be started in December and continue during the winter and early spring. The longleaf pine trees to be planted will be obtained from the Forest Service nursery near Alexandria, La., but will have been grown from native Texas seed.

SINCLAIR TRACTOR LUBRICATION CHARTS

Sinclair Tractor Lubrication Charts show how, where and how often to apply correct lubricants to various makes of tractors.

Use of Sinclair lubricants as directed by these charts helps avoid excessive wear and breakdown of equipment due to faulty lubrication. These easy-to-read charts will save you time and money in keeping your tractor properly lubricated. They're ABSOLUTELY FREE for the asking.

Ask the local Sinclair agent for a chart for your make of tractor. And remember...

... thousands of trucks carrying a complete line of Sinclair farm products cover farm routes every week. Over a season, these high quality products will save you money on your farm. Phone the local Sinclair office.

Tractor Fuels—Distillate, Kerosene, Gasoline... Cup and Axle Grease... Cream Separator Oils... Harvester Oil... Gear & Chassis Lubricants... Anti-Freeze... Pressure System Grease... P.D. Insect Spray... Stock Spray... Motor Oils

SINCLAIR

Hardy Tims, 4-H club leader at Crowley, (Tarrant county), reports his bird dog is now the foster mother of 11 new-born pigs. The adoption was made when the sow died and Tims replaced the dog's pups, also new-born, with the pigs. The dog apparently didn't mind, and the swine are growing as fast as they would have under normal conditions, Tims says.

Texas-manned airplanes of the Royal Canadian air force will carry decalcomania strips depicting a charging Texas longhorn steer, according to University of Texas officials who shipped the proposed insignia to Vicotiraville, Quebec. The charging steer will be shown crashing through the ringer, star-shaped insignia of the U. S. air corps, with the motto of the RCAF between the star's upper points and the word "Texas," centered below the star.

Approximately 360,000 pounds of dried eggs—in powdered form—left Fort Worth recently for an Eastern U. S. seaport where they are to be shipped to Great Britain. The eggs are being furnished the English people under the lend-lease bill. About 14,500,000 eggs were used to fill the order, a representative of the egg-drying plant said.

METEORS

The Perseid shower has
raised the curtain on the chief
meteor season of the year.
It is the "season" only be-
cause more meteors are visi-
ble. Actually it is estimat-
ed that at least 20,000,000
meteors enter the earth's at-
mosphere every day and a
minimum of one a day
reaches the earth's surface.
Their great speed sets up
such frictional heat on enter-
ing the atmosphere that they
become brilliantly incandes-
cent and most of them are
consumed long before they
can reach the earth.

POWDER BAGS

There may not be silk
enough for stockings, but
there will be for the Army's
and Navy's powder bags,
which hold the explosive
charges for large-caliber
guns. Silk is used in gun-
ny because of its rapid and
complete combustion when
the powder is detonated. It
causes no fouling and leaves
no smoldering tatters when
the breech is opened. Also
it is tough in proportion to
its weight, and it lasts well in
storage.

SPRING IN THE HEART

Winter is on my head, but
eternal spring is in my heart.
The nearer I approach the
end, the plainer I hear round
me the immortal symphonies
of the world to come. For
half a century I have been
writing my thoughts in prose
and verse; but I feel I have
not said one-thousandth part
of what is in me. When I
have gone down in the grave
I shall have ended my day's
work; but another day will
begin next morning. Life
closes in the twilight, but
opens with the dawn.—Victor Hugo.

Approximately one-half of
the nation's automobiles are

Our Boys and Girls

AUNT MARY, Editor, 1809 Ashland, Fort Worth, Texas.

DEAR FRIENDS:

Just now it is a safe
assumption that the lives
of all the boy and girl
readers of this page are
centered on school—the
three R's—readin', ritin',
'rithmetic. And well it
may be, for modern
school studies and school
play activities are fasci-
nating and a vital part
of children's lives and
the lives of their par-
ents.

This year I am ex-
periencing something
new in my personal life.
I am glimpsing the in-
side of a modern college
through the eyes of my
daughter who has en-
tered one of our leading
State colleges for major
studies.

Some of you, perhaps,
would be interested to
know I have one child in
elementary school, one
in high school and now
one in college. Being of
an inquisitive nature, I
have enjoyed my chil-
dren's adventures in
school.

Also I would like to
know more about the
school life of the boys
and girls who read this
page. Write me about
it.

Love to all,
(Signed) AUNT MARY.

Kiddies-Can-Do-It By Uncle
Cobb Shinn

Peter Porker and the Ear of Corn

THERE are three ways by which Peter Porker can start for the
ear of corn, but only one way leads into the pen where you see
the corn. Try and see if you can find the right way the first
time.

TRUE STORIES

The following story, taken from "Adven-
tures and Achievements," published by Hough-
ton Mifflin Co., is a true adventure.

It has been said, "It is a small matter to
learn merely when a man was born and died
and what honors he received. Rather it is
better to make friends among the wisest,
noblest and bravest of all countries and all
ages." This we can do through the little
stories of their lives.

A Walk With Stanley in Africa

The herd-keeper who attended the goats
and donkeys soon after our arrival in camp
drove the animals to water, and in order to
obtain the water they traveled through a tun-
nel in the brake, caused by elephants and rhin-
oceros. They had barely entered the dark
cavernous passage when a black-spotted leop-
ard sprang and fastened its fangs into the
neck of one of the donkeys. The other donkeys
set up such frightful cries, and so lashed their
heels in the air at the feline marauder, that he
bounced away through the brake as if in
dismay at the noisy cries the attack had pro-
voked. The donkey's neck exhibited fright-
ful wounds, but he was not dangerously hurt.

Thinking possibly I might meet with an
adventure, see a lion or a leopard in that dark
belt of tall trees, under whose impenetrable
shade grew a dense thicket, I strolled along
the place with my gunbearer, Kaululu, who
carried an extra gun and extra supply of
ammunition. We crept cautiously along, look-
ing keenly into deep dark dens. I expected
every moment to behold a ferocious animal
bounding toward me, and I took special de-
light to picture, in my imagination, the
wrath and majesty of such an animal. I
peered closely into every dark opening, hoping
to see fiery eyes looking into mine, but, alas,
after an hour's search for adventure, I en-
countered nothing. By this time I had waxed
courageous and crept into a leafy bower, to
find myself standing under a canopy of foliage
that towered fully 100 feet above my head.
Around me was an almost impenetrable
jungle. Below me babbled a primeval brook
over smooth pebbles. I was charmed by the
wild scene that lay before me. Just then I
saw a monkey perched high on a branch over
my head, contemplating me with fear and
curiosity. Well, I could not help but laugh
loud at the strange-looking little creature.
This laugh frightened a troop of monkeys
hidden in the leafy boughs above and they
scattered away with angry cries and shrieks.
Emerging into broad sunlight, I strolled
farther in search of something to shoot. Pres-
ently I saw, feeding quietly in the forest which
bounded the Valley of the Tambu, a huge red-
dish-colored wild boar armed with long sharp
tusks. Leaving Kaululu, I crouched behind a
tree, then advanced cautiously. When within
40 yards of the animal I took deliberate aim
and fired at its fore-shoulder.

As if nothing had hit the boar, he jumped
back, then stood bristling and gnashing his
teeth. I fired again, the bullet ploughing its
way through his body. Instead of falling
dead, as I expected, he charged furiously at
me. I sidestepped and fired another bullet
into his body as he rushed past me toward
Kaululu, who had crouched down behind a tree.
Just as he was in a few feet of Kaululu, he
suddenly halted and fell over on his side. I
advanced on him with my knife to cut his
throat. But before I could slit his throat, he
leaped to his feet and darted into a thick
brake, from which it was impossible to oust
him. That surely was a tough boar. I feel
sure I planted three bullets into his body.

It was now getting late, the camp was three
miles away, so we reluctantly returned to
camp without any hog meat.

On our way to camp we were followed by a
large animal. It was too dark to see plainly,
but the animal looked much like a lion.

That night, about 11 p. m., we were startled
by the roar of a lion, close to
our camp. Soon it was joined
by another lion, and still by an-
other. The novelty of the thing
kept me awake. I tried to get
an accurate shot at one of the
lions, but darkness made my
aim poor, so I had to turn in
for the rest of the night and
try to sleep amid roaring lions
that slinked away just before
dawn.

—By Henry Morton Stanley.

**FRIENDLY HOBBY
CLUB**

Month by month increase of
club membership is a source of
satisfaction to us all. The fact
that through this club many
fine boys and girls are getting
to know each other better makes
it a worthy cause.
Here is YOUR opportunity to

join a club without any dues, fees or assess-
ments. The rewards are determined by what-
ever you put into it. Join now.

Club Rules

Here are the rules for becoming a member
of the Hobby Club. You will please note one
change, that is, you may join only ONE de-
partment.

1. There are no fees or dues now or at any
time.
2. All that is required is for you to fill
out the coupon below and mail it at once to
Aunt Mary, 1809 Ashland, Fort Worth, Texas.
3. You will receive your membership card,
list of instructions and secret code as soon as
we get your coupon.
4. You may join only one department.
—but NO MORE. The departments are
as follows: (A) Friendly Correspondence,
(B) Sunshine for Others, (C) Stamp Ex-
change, (D) View Cards, (E) Miscellaneous,
(1) Coins, (2) Curios, (3) Souvenirs, (4)
Butterflies, (5) Clippings, (6) Books, (7)
Postmarks and (8) Magazines.

CONTEST AWARDS

Here are the names of prize-winners in the
"Vacation Time" letter contest offered by
Aunt Mary in August. Hope you enjoy read-
ing the letters as much as the judges.

First Prize

The first prize of \$2 goes to Miss Lola
Koester, Schulenburg, Texas. Her letter fol-
lows:

"We did not take the usual vacation trip
this summer, but spent the entire time at
home.

"Early in the morning I would take time to
listen to the clarion call of a beautiful red-
bird that usually was perched on the limb of
a pecan tree not far from my bedroom win-
dow. He was a beauty—all shiny and red—
and the call was sweet and sincere though
tinged with a note of sadness. I kept hoping
his mate would answer, and that I might have
a glimpse of the mate, but I never did. I do
hope the call was meant to be a song of love
and devotion, and that the pretty red-bird will
experience all the joys of living.

"It was sunrise, and how the dewdrops
glistened on the roses. Quaint, old-fashioned
flowers were growing next to my window,
and contributed their soft fragrance to the
morning breeze.

"Then came the tantalizing aroma of cof-
fee and waffles for breakfast. Mother was
treating us to our favorite menu during our
vacation.

"As I ate my crisp bacon strips, hot waffles
covered with hunks of butter and fresh peach
preserves, followed by good coffee, I realized
how very fortunate we Americans are!

"My vacation this summer was so interest-
ing, restful and pleasant, because I had time
to study and appreciate the countless little
things which make our days so full of sun-
shine and happiness."

Name of newspaper Lola reads is "The
Schulenburg Sticker."

(Continued top next column)

**MIGRATORY BEEKEEP-
ERS**

Men engaged in one of the
strangest occupations in the
country are getting ready to
start another year. They are
the migratory beekeepers,
men who literally drive col-
onies of bees across the coun-
try.

Using big trucks stacked
with hives, the beekeepers
follow the blossoming cycle
through the South and South-
west. They start in the or-
ange groves, then go on to
clover, alfalfa and sage.
These men raise bees for the
honey harvest.

Another odd occupation is
raising "package bees." This
also is done in the South, for
the benefit of the whole
country. These bees are lit-
erally "packaged" and sold
by the pound for shipment to
farms at the proper season,
so that crops may be pollinat-

ed. Orchardists are among
the greatest users.
A five-pound package will
contain more than 20,000 bees
and sells for \$4 or so without
a queen. A queen costs
about \$1 more.

LOOKING AHEAD

The U. S. Census Bureau is
looking far into the future in
predicting the population
trends of this country. The
Bureau has predicted that
the population of the United
States will continue to grow,
but at a steadily increasing
rate until about 1980 or 1985,
after which a decline in num-
bers will begin.

**HELPS TO PREVENT PINK
EYE**

Running the mowing ma-
chine over the pastures and
cutting the weeds will remove
the possibility of pollen en-
tering the eyes of cattle to
cause pink eye.

These fat, white-faced steers raised by Bob and Louie Davis, of Abilene, brought the year's top mar-
ket price of eleven cents a pound when sold recently at the Fort Worth Stockyards market. The ship-
ment totaled two cars of 50 3-year-old steers which averaged 1,338 pounds per head. They were rais-
ed at the Davis Ranch in Shackelford county and then fattened for the past nine months on grass
and Burrus TEXO Range Cubes at the Berry Hood Ranch just west of Fort Worth. Seen admiring
the cattle from the stockyard's rail fence are, left to right: Louie Davis; Wiley Akins, of Dallas,
general manager of Burrus Feed Mills; Bob Davis, father of Louie; and T. A. Nored, Fort Worth
commission man.

THE VALUABLE QUININE TREE

The Netherlands Indies, whose resources are eyed covetously by Japan, supply the United States with the greater part of its quinine. According to the United States Department of Commerce, 5,500,000 pounds of cinchona bark, from which quinine is made, were imported by this country last year; of this amount, 5,210,000 pounds came from the Netherlands islands.

Valuable as a specific for two of the three types of malaria and as an aid in reducing fever temperatures, quinine was first discovered by South American Indians. The earliest well-authenticated use of quinine occurred in 1638, when the Countess of Cinchon, wife of the Spanish Governor of Peru, was cured of fever by an Indian remedy prepared from the bark of a tree now called "cinchona" in her honor. Because knowledge of this healing bark was spread throughout Europe by Jesuit priests, it became commonly known as "Jesuits' bark." A legend arose that it was first discovered by a Jesuit missionary.

The cinchona grows wild in South America. It was imported to Asia when large European consumption plus wasteful methods of procuring the bark brought fears of shortage. In 1854 the Netherlands government found the soil and climate of Java more adaptable to the mass production of cinchona than South America itself. That discovery led to the cultivation of cinchona plantations.

In an effort to develop other sources of supply, the United States is importing more cinchona from Colombia, Ecuador, Nicaragua and Guatemala. The United States Agricultural Experiment Station at Mayaguez, Puerto Rico, is testing different species of the tree with a view to establishing it in the West Indies and rebuilding the South American cinchona industry.

BUSY WOMEN'S WORKBASKET

Dish Drying Kitten

A calico cat performs above calico corners for a gay tea towel motif. It's really not a very strenuous week he puts in—sleeping behind a flower pot, watching the fish bowl, drinking milk, etc.—but your kitchen will welcome the decorative he gives to tea towels. The 7-towel designs and the matching panholder are on transfer C9376, price 10c. Use a bright plaid for the cat and the corners, and finish the motifs in outline embroidery.

Address all letters to Southwest Magazine, Needlecraft Dept., Box 166, Kansas City, Mo.

WHAT WE SHALL WEAR

Modern women have a complex problem to meet in that they must be smartly dressed with the least expense. That is something easy to say but hard to do. Here are a few suggestions that might be helpful:

As we look over fall fashions which forecast winter styles they fairly shout simplicity and soft tailoring. Featured most often is the costume suit. Busy women all over the country practically live in these suits because of their practical value. For the most part, they are made of soft wool of gray and red plaid with silk crepe, or other equally interesting color schemes. You can wear the top coat with all your tailored clothes.

Corduroy has become a favorite for dresses and suits, especially among the young set, from coast-to-coast. The colors run the length and breadth of the rainbow; they are truly lovely.

Military influence finds eloquent expression in the tasteful braids, patents and mass perforations on lovely shoes.

Dainty underthings are more lovely than ever. Here woman can satisfy her desire for beauty. The new trimmed rayon jersey slip is the answer to many yearnings. Smooth-seamed and made with a bra-top and shadow skirt, tailored to give you that "unbulky" look, it is the smartest thing on the market. You will find net and lace ruffled bottoms. Easy to take care of, no pressing needed, they answer a dream come true.

For the girl who would like two hats but can afford to buy one, the "two-faced felt" is the answer. One side of the hat has a turned-up brim while opposite it is a perky bow. Turn the hat with the brim to the front and you have a high-brimmed off-the-face charmer so flattering to a youthful face. Or reverse it, and you have a saucy bow above your pompadour with the new smart apron effect in back.

All in all, it looks like a rather unique year for women's fashions, which history reveals is always true in a national emergency.

BACK TO SCHOOL

Once again the school doors open to receive our boys and girls for another year of study. What will they learn? This should be the prime interest of every citizen and taxpayer in the United States. What kind of citizens will the millions of dollars we annually pour into education produce for us? This is the question all should ask and all should seek to answer.

Dr. M. M. Parks, in a few words, defines education as follows:

- The Student says Books.
- The Scholar says Knowledge.
- The Preacher says Character.
- The Business Man says Service.
- The Philosopher says Truth.
- The Artist says Beauty.
- The Stoic says Self-Control.
- The Christian says Self-Denial.
- The Democrat says Self-Government.
- The Statesman says Co-Operation.
- The Ruler says Loyalty.
- The Judge says Justice.
- The Aged Man says Wisdom.
- The Youth says Achievement.
- The Dreamer says Vision.
- The Child says Play.

WE DINE

With tingling autumn in the air—the rush to and from school and the hurry to accomplish so many tasks of each day—nourishing food is greatly in demand.

Herewith are a few helps to pep up the menu:

Vegetable Chowder

- 3 tablespoons butter
- 1 onion, minced
- 2 stalks celery, diced
- 1½ cups iced left-over vegetables (carrots, potatoes, peas, corn, etc.)
- 4 cups milk. Salt. Pepper. Parsley.

Cook onion and celery in butter 2 minutes. Add vegetables, milk and seasoning and heat. If you haven't enough left over vegetables on hand, add diced raw vegetables and 1 cup of water to butter, onion and celery and cook 15 to 16 minutes before adding rest of vegetables and milk. Preparation time, 10 minutes.

Frozen Tomatoes

- 6 small tomatoes
- 3 tablespoons butter
- 2 teaspoons anchovy paste
- Stuffed olives. Lettuce.

Scald and skin tomatoes. Remove a small piece from the blossom end and fill with butter which has been creamed with anchovy paste. Place in freezing trays in refrigerator for 2 hours. Garnish with sliced olives and serve on lettuce with mayonnaise.

Honey Biscuits

- 2 cups sifted cake flour
- 2 teaspoons double-acting baking powder
- ½ teaspoon salt
- 5 tablespoons butter or other shortening
- ½ cup milk
- 4 tablespoons butter
- ½ cup honey.

Sift flour once, measure, add baking powder and salt, and sift again. Cut in shortening. Add milk all at once and stir carefully until all flour is dampened. Then stir vigorously until mixture forms a soft dough and follows spoon around bowl. Turn out immediately on lightly floured board and knead 30 seconds. Roll ½ inch thick and cut with floured 2-inch biscuit cutter. Bake on ungreased baking sheet in hot oven (450° F.) 12 to 15 minutes. Remove biscuits from oven; split in halves. Spread lower halves with butter, and upper halves with honey. Put halves together and let stand a few minutes so that flavor may permeate biscuits. Makes 12 biscuits.

Honey Bran Muffins

- 1¼ cups sifted flour
- 1½ teaspoons double-acting baking powder
- ½ teaspoon salt
- ½ teaspoon soda
- 4 tablespoons honey
- ¾ cup sour milk or buttermilk
- 1 egg, well beaten
- 3 tablespoons melted butter or other shortening.
- 1 cup 40% bran flakes.

Sift flour once, measure, add baking powder and salt, and sift again. Add honey, soda, buttermilk, egg, butter and bran flakes. Stir until well mixed. Bake in muffin tins in hot oven (450° F.) 12 to 15 minutes. (Continued top next column)

A TIP TO THE MENU-MINDED

The richest flavor in coffee!

Admiration Coffee

3 PERFECT PACKS 3 PERFECT GRINDS

The smart hostess adds to her reputation by serving richer-flavored Admiration Coffee. It's the item d'resistance on her menu for every occasion and home use. The exquisite flavor and fragrant bouquet of this finer coffee are insured by the expert blending and scientific Thermo-Roasting method of the Duncan Coffee Company. No hostess, experienced or inexperienced, need fear the failure of her menu provided she serves Admiration . . . the richest flavor in coffee!

der, soda, and salt, and sift again. Combine honey, milk, egg, and shortening. Add to flour, beating only enough to dampen all flour. Add bran flakes. Bake in greased muffin pans in hot oven (400° F.) 25 minutes. Makes 10 muffins.

POLISH PILOTS

For their bravery in combat the Poles flying in the Royal Air Force are becoming the legendary heroes of this war. They are demoniac fighters because their lives have lost practically all spiritual values except hatred and thirst for vengeance against Hitler's Luftwaffe. They have lost their families, homes, country. Death is to them unimportant as long as in dying they are able to deal a blow at the cause of their tragedy.

Air Ministry communique, telling of Polish deeds, rigidly adhere to a policy of revealing no names because most of these men have relatives and friends living under German domination. Only once since last August has this rule been officially relaxed. This was in the case of Sergeant Pilot Josef Francisek whose identity was revealed only after he had lost his life. The Distinguished Flying Medal was awarded him because in one half day's dogfighting he downed five German planes. The Poles are daredevil pilots and are good pilots. Their bombers scrape the rooftops of German bases in France to carry out their missions in the teeth of the heaviest barrages. Their fighters unhesitatingly attack overwhelming numbers—sweeping, stalling, and spraying destruction all over the sky.

GOOD POSTURE

Nothing is more necessary to good health and good looks than good posture, says Lenora Anderson, Georgia clothing specialist. "The slouchy humped-over girl is most unattractive. The person with poise has a wonderful asset," she adds. "This means that she stands well, walks well, with toes straight ahead, carries her head and chest high and looks straight forward. The clothes worn by this girl will take the correct swing. "If you do not have good posture, cultivate it. Exercise, proper shoes and clothing will aid you. Continual thought is necessary until the correct habits are formed," said Miss Anderson.

Gasoline tax, according to statistical summaries, was the most important single source of the 48 States; tax collections last year amounting to \$868,000,000.

FINGERPRINTS

Mayor La Guardia, of New York City, as head of Civilian Defense, has urged that every person in the United States be fingerprinted, for sure identification in case of air raids.

Such identification is almost as old as recorded history. Eastern kings used it as a sign-manual. The first suggestion of classification was made in 1823 by a German scientist.

Popular objection to the idea of fingerprinting has centered in its association with criminal identification. (Last year more than 7,000 fugitives from justice were identified by this means alone). But for some time there has been a movement to remove this stigma. Advocates of universal fingerprinting point to its many civilian uses, including identification in case of accident,

payroll protection, industrial plant protection and in banking.

NEW POWERFUL MICROSCOPE

A new huge electric microscope has been developed that magnifies objects to as high as 100,000 times their natural size. It can also look into bacteria blood cells and other biological substances in the realm of the infinitesimal. This new microscope is a modification of the electron microscope. With this new explorer of the dark jungles of living substances a blood corpuscle may be enlarged to the size of a two-foot pillow, and a human hair to the size of a tree 12 inches in diameter.

The steel industry is now employing about 625,000 workers, an all-time peak.

NAZI ARE MOVING TO RED VICTORY

MRS. T. C. COPUS IN BRYAN SUNDAY

(From Monday's Daily)

Mrs. T. C. Copus, former business woman here, died at the home of her daughter, Mrs. Erwin Conway in Bryan Sunday night.

Mrs. Copus sold her business, The Specialty Shop, here last year and gave up her business engagements because of ill health. Her condition had been critical for several weeks prior to her death.

She was a native of Louisville, Kentucky and came to Texas with her husband in 1912.

Mrs. Copus is survived by two children, Ray Harold Copus and Mrs. Ervin Conway, Jr., both of Bryan and a sister who lives in Louisville, Kentucky.

Funeral services will be held from the McCullin Funeral Home in Bryan at 3:30 Tuesday afternoon with interment in Bryan.

Pall bearers from Cameron will be Frank Reid, Calvin Markham, R. W. Hester, W. G. Harsha and Larry Hackebell.

TEXAS FIREMEN HERE FOR CONVENTION SUN.

Two hundred Texas firemen, their wives and guests, were in Cameron Sunday for the District Convention.

The attendance was cut down because of another convention which was scheduled without knowledge that Cameron was to be the convention city for this district.

Among the distinguished visitors for the day was Olin Culberson, Railroad Commissioner, the Secretary and Treasurer of the Volunteer Firemen's Association of Texas.

John C. Andres, President of the District Association, convened the business session Sunday morning to hear reports and to make plans for the coming year.

Mayor Smith of Cameron delivered the welcome address and was responded to by H. L. Stockbridge of Round Rock. At noon a barbecue was served at the country club and at 1:30 Olin Culberson delivered an address.

George W. Carlson of San Antonio told about present activities of the Federal Bureau of Investigation and how firemen may co-operate in this work.

Brenham won the pumper races and the first prize of \$25 and also took the first prize in four man races.

Taylor won second prize of \$15 in the pumper races and Fredericksburg was third to win the \$10 prize. Llano won second prize in the four man race and received \$5.

Firemen and their guests enjoyed a lunch at the American Legion hut following the races.

A. H. BULLOCK BURIED AT MILANO WEDNESDAY

Funeral services for Arthur Henry Bullock, were held in First Methodist Church in Milano at 4 p. m. Wednesday with Rev. Cole, pastor conducting the services. Interment was made in the Milano cemetery with the Coleman Funeral Home in Cameron directing arrangements.

Mr. Bullock was killed when he stepped from a moving train in Abilene on Tuesday night.

He was born in Milano in 1895 and made his home there until about ten years ago when he moved to South Texas where he obtained employment in the oil fields.

He is survived by three brothers: G. T. Bullock of Kilgore, W. K. Bullock of Corpus Christi and Joe Bullock of Milano.

M. V. Heath, Manager of Goree Farm of near Huntsville, on his way to Bartlett, stopped to visit with his cousin, W. A. Heath, on Thursday.

Giles L. Avriett, Chief Auditor for the State Department of Public Welfare of Austin, transacted business in Cameron Thursday.

Another Do You Know

Cameron is fortunate in having three troops of Boy Scouts, numbering about sixty boys, whose ages boys are taught life-saving, first range from twelve years up. These aid, hygiene, fire prevention, civics, poultry raising and many other things that equip them to be useful citizens.

The Knights of Pythias, The Lions Club and The Knights of Columbus each sponsors one of these troops. Each troop has a scoutmaster who supervises all the meetings and coaches the boys in their special training. The boys are expected to work at various jobs and purchase their own scout equipment, and they do this almost 100 per cent. This teaches them early in life that they stand alone and they are greatly benefited in finding out that they can work and be self sufficient.

Scouts of Cameron perform many public services; some of the recent ones are as follows: Gathering of license plates to be shipped to Britain, gathering of aluminum for use by our own government in the manufacture of bombing planes, and passing out of placards and posters announcing our preparedness program.

The three Cub Troops of Cameron are sponsored by the Lions Club with thirty Cubs enrolled—ages nine to eleven inclusive. Scout and Cub Troops are under the general supervision of Mr. Charles Rutledge.

The only money donated to scouting comes from Community Chest and it is the opinion of many that the education and training of our young boys through scouting is one of the Chests most necessary obligations.

Eligibility of Four Tiger Men Questioned At Secret Meeting

Eligibility of four men on the Rockdale Tiger squad was investigated here Friday on the eve of the Yoemen-Tiger game in a secret meeting of the District Committee.

The case was known to the Herald but no news story was printed because of lack of information over the outcome.

Last year when charges were made against J. P. Gooch, Cameron guard, the matter was given wide publicity. No reason has yet been given why a secret meeting was held here and no official explanation may ever be made but here are the facts as substantially as they could be obtained under the circumstances:

J. T. Leech, Tiger back; J. R. Brannon, Tiger back; J. D. Busby, Tiger guard were questioned on their grades while M. Benner, 160 pound tackle, who recently moved to Rockdale with Coach Loudermilk was questioned on eligibility under transfer rule and by grades.

Benner has already been declared ineligible by the committee and the other men were withheld from the game Friday pending a verdict in their cases.

Superintendent Ransom of Belton; Johnson of Taylor and Peebles of Killean, compose the committee.

The meeting was held at Yoe High School behind closed doors. It was understood no mention was to be made of the matter at that stage of the proceedings.

The matter is held by the Herald to be highly important news and is passed along to Mr. and Mrs. John Public for appraisal.

SCHOOL CARNIVAL

School carnival will be held on the school grounds of the Ad Hall School on Friday night, October 17, at 8 o'clock. The carnival is usually held on the inside, but if the weather permits will be held on the school grounds as scheduled.

This carnival is being given for the benefit of the Athletic group and is sponsored by the community as a whole.

There will be no admission charge and everybody is invited to come out for an enjoyable evening at the same time help the Ad Hall Athletic Council.

Mr. and Mrs. Henry Dakel visited in Temple recently.

YOEMEN LINE PLAY FEATURES THRILL GAME

By J. B. WHITE

The score seldom tells the story. We doped it 19 to 13 in favor of the Yoemen and that is exactly what the records will forever show. That is not important.

What we saw was bigger than any score board and better than the satisfaction that comes with a lucky guess.

The Yoemen jumped square into the lime light of conference competition by a brand of football that pulled hundreds of spectators out of their seats and set them to screaming like mad last night on a field that was none too light as rain sprinkled down at intervals from an overcast sky.

In a game packed with thrills and heart breaks the Yoemen took their first conference game in as hard earned victory you will be likely to see in many a year.

The game was hardly 5 minutes old when Carter Newton, Tiger full back, went out of the game with a badly injured left leg. Edwards, Tiger Center, was shifted to the back field and the game went on.

A bit of displacement strategy took Bobby Hays partially out of the picture in the back field as handsome Mack Nicholson moved into the spot light with sensational gains through the Tiger line, and Jim Wilkinson, as good half back as we have seen wrapped up in 155 pounds, scoring two touch downs with blocking that looked like a pincer movement on the plains of the Ukraine.

Bobby Hays, who made the mistake of tossing a pass to Eiland instead of a Yoemen who was hidden out on the bounds, in the third quarter, duplicated a brilliant offensive record of the season as a ball carrier, by turning in a jam up blocking game that helped Jim Wilkinson score two touchdowns.

The Yoemen made a lot of errors, but were good enough to rise above their mistakes and make 11 first downs while the Tigers got only 4.

The Yoemen ran up a total of 256 yards on line play and 36 yards on passing while the Tigers were held to 50 yards from scrimmage and got 78 on passes.

Big Bob Salaah, co-captain and center for the Yoemen, set up the first quarter touchdown when a Tiger punt went hay wire and dropped down on the 38 yard line. Hays tossed a pass to Phipps on the Tiger 16 yard line and on the next play picked up 6 yards.

Under a new rule the line from tackle to tackle can not move forward—(Turn to page four)

25 CALVES ENTERED IN SHOW HERE OCT. 20

Twenty five beef calves will be entered in the 4-H Club Beef Calf Show to be held in Cameron on Monday, October 20, by the following Milam County 4-H club boys:

Wm. Winkler, Duane Carleton, Marvin Kamenicky, Johnie Kamenicky, Homer James, and Buford Petty from the Ad Hall School; Roy Henson, Roy Lynn Casey, Harvey Ray Casey, Boyd Lee White, Robert White and Arthur Henson from the Briary School; Leonard Chapman, Thomas Burnett and Max Schwiner, Jr., from the Jones Prairie School; Calvin Krause, W. J. Ray and Sam Henderson from the Val Verde School. Robert Lee Folschinsky, Walter Strickler and L. E. Mitchell from the Ben Arnold School. Joe Kostih, Douglas Houston and Elmer Ray Richards from the North Elm School.

These calves were fed on home grown feed, and the boys are trying to demonstrate that home grown feed crops can be marketed in a more profitable manner through beef cattle and other livestock than by selling this feed on the open market.

The show will be the first of its kind to be held in Cameron and the boys extend an invitation to all business men and farmers to attend the show. The calves will be judged by D. R. Carpenter, County Agent of Anderson County.

YOEMEN WORKING FOR EAGLE GAME

The Yoemen are taking no chances, but are pointing from game to game which means that when the Georgetown Eagles come here Friday night they will find a team that is not over confident, but ready to give their best.

The old dope bucket has been turned over so many times nobody pays any attention to it any more.

When the Killen Kangaroos trotted out on the field in Georgetown Friday night just about everybody who knew anything at all were certain that it was all over but the shouting.

Everybody but the Georgetown Eagles had it doped that way, and they came through with about the most surprising upset in the history of the conference when they knocked off the Kangaroos 7 to 6.

Coach Wood was very happy over the new blocking assignment which he has given to Bobby Hays and fans here are likely to see Hays in the roll of a blocker more times than he carries the ball.

There are several weak spots in the line, but some changes may be made by Dick Young to bolster this part of the Yoemen team. One thing the Yoemen will have to learn and that is the new rule on forward passes. A stout defense is absolutely necessary if Cameron survives in the District this year.

Based on present showings the teams in the District will rank as follows: No. 1—Taylor; No. 2—Cameron; No. 3—Rockdale; No. 4—Killen; No. 5—Belton; No. 6—Georgetown; No. 7—Rosebud.

It would be a mistake to underestimate the Killen team which has the best material in the conference, but may lack good coaching. Before the season is over the Kangaroos are going to defeat some of the leading teams of the conference.

In Killen Saturday the fans were taking their defeat in the right kind of way. They said it would encourage and was a good sign because the boys have been too sure of themselves and now they realize they must get down on the ground and play football.

Tommy Bishop, 185 pound fullback, for the Killen Kangaroos is about the brightest prospect this conference has produced since Joe McLean of Cameron and Heap of Taylor.

M. BUTLER DIES EARLY TUESDAY IN ARLINGTON

M. Butler, 65, of Arlington, died at 4 a. m. Tuesday in Fort Worth. He was the father of Mrs. H. G. Chamberlain of Cameron.

Funeral services will be at 10 a. m. Wednesday, October 8 in Arlington. He was a member of the Baptist Church. Interment will be in Arlington where the family has lived for many years.

Friends of Mrs. Chamberlain in Cameron were deeply grieved to know of her father's death Tuesday morning.

Other survivors are: Mrs. J. R. Simpson of Caldwell, who with Mrs. Chamberlain were at their father's bedside when he passed away. Another daughter Miss Nora Butler also lives in Caldwell. Miss Ruth Butler, a daughter, lives in Arlington. Three sons: Pearl Butler of Big Springs, Aubrey Butler of Fort Worth, and C. W. Butler of Arlington, also survive.

He is survived by his widow, Mrs. M. Butler of Arlington.

Bert and Ollie Chamberlain, grand sons of deceased, and J. R. Simpson of Caldwell left Cameron early Tuesday morning for the Butler home in Arlington where they will attend the funeral.

Corporal Roy M. Heath, who is stationed at Camp Claiborn in La., visited his mother and father Mr. and Mrs. W. A. Heath the past week end.

Miss Maurine Hollas left Friday morning for San Antonio where she will attend Johnson's Beauty Academy.

DENTAL UNIT HERE FOR WEEKS HEALTH PROGRAM

Announcement has been received from Dr. Roy G. Reed, Director of the Milam-Robertson County Health Unit that a Mobile Dental Unit which is being used by the State Department of Health for dental health education and dental corrective work for indigent school children will be in the County for service in the public schools from September 29 to October 21 inclusive. This Mobile Dental Unit is made possible for Milam County through the County Health Unit and will operate a part of the Unit while here. It is to be used in the larger schools of the County. It is operated by a full-time staff dentist from the State Health Department. This dentist will be assisted by the staff of the County Health Unit.

The dental unit is furnished with modern, electrical dental office equipment and is prepared to do all types of simple corrective dentistry for children for the free service by the County Health Unit, teachers, and local dentists. Before a child is eligible for the free service, he must show need of dental corrections and the work must be authorized by the child's parent's or guardians by their signatures requesting the service. The local dentists co-operate in the plan and it is the wish of the County Health Unit and the State Department of Health that it be considered a part of the school and of the community when it is in a given area.

The Mobile Unit has visited the Thorndale and Rockdale schools, and will be in Ben Arnold October 3, October 6 and 7, the Unit will be in Buckholts school. At 2 p. m. October 6, the patrons of the school are invited to see the motion pictures and the Unit.

The Dental Unit will be at Ada Henderson School October 8 and 9, and the patrons will be notified by the school authorities of the time for the motion pictures.

On October 10, the Unit will be in the Cameron Catholic School and the motion pictures will be shown to pupils and parents in the afternoon of that day.

The itinerary for the Mobile Unit for the remaining part of Milam County is as follows: October 13, and 14, Milano; October 15, Gause; October 16, San Gabriel; October 17, Sharp; October 20, Maysfield.

BIG NEWS?

President Roosevelt sent a special message to Congress shortly after noon today asking for modification of the neutrality law.

The President would not ask for repeal of the law. He asked only for permission to arm merchant vessels.

The President said he would not submit to dictation from Hitler where American ships may go.

Arming vessels will accomplish nothing. More brave words and no action.

Mrs. Gib Terry of Minerva transacted business in Cameron Tuesday.

Hico Man Gets 4 Years In Prison After He Attempts Knife Attack on District Attorney During Trial of Case in Court Here Monday

Frank Thompson of Hico attempted to attack District Attorney W. A. (Bill) Morrison with a knife in District Court here Monday while he was under trial in connection with theft of money from the Muse Market in Cameron.

Thompson was indicted by a Grand Jury in District Court on a charge that he had taken \$155 from the Muse market to purchase poultry and embezzled the money. Charges were filed by Mr. Muse and the District Attorney obtained evidence for the indictment.

When Thompson was called for trial on Monday he refused the services of a lawyer whom the court agreed to appoint for him and decided to conduct his own case.

During the trial he asked the District Attorney to take the stand. He asked Mr. Morrison if he had not gone out and worked up a case against him. The District Attorney

PERFIDY CHARGED IN AID PROPOSAL TO REDS

Adolph Hitler was staking all on a great gamble for victory in Russia and was succeeding today in what is described as the world's greatest and most decisive battle.

A situation of the utmost gravity had developed with a collapse of a portion of the Russian Central Front.

The end of the war was announced with fanfare throughout Germany as Hitler told his people that the final battle is on and that Russian resistance has been broken everywhere and the Soviet union is doomed.

The German victory in Russia brought suspicion that the United States and Great Britain have played a perfidious role in the whole campaign by promising Russia help that neither had any intention of sending.

There was growing belief in some quarters that the destruction of Russia is desired both in England and the United States.

After Hitler has concluded with the Soviet he will have only the British Isles left to conquer.

The Soviet Union has made a frantic plea to England to attack Germany. It seemed significant that during the critical days of the final battle in Russia that England has stopped all operations, not even a bomber has gone over the Reich for several days. What is the explanation? Some said it indicated sensational, far reaching developments and perhaps a new phase in the war.

The German armies are within 100 miles of Moscow.

The entire German luftwaffe, which means that all of the fighter and bomber planes that Hitler has left have been thrown into the battle and although the Germans are paying a ghastly toll they are going ponderously on and Russia is doomed.

Except for the area at Leningrad and around Odessa, the Russians are being defeated. Already the Germans have turned west toward Moscow from the river Don, leaving the rich Ukraine a prostrate victim of the blitzkrieg.

On the central front, which is in the vicinity of Smolensk where the Russians applied pressure during the siege of Odessa, the Germans have broken through and are rolling the Soviet army back in what Berlin said was the final battle of the war.

Adolph Hitler issued a communication from his headquarters stating that the Soviet are doomed and the victory he promised his people and the world would come in 1941.

In London government spokesmen said that England is in the greatest danger since Dunkirk.

The people of the world will not soon forget that England has stood calmly by and refused to fight and now every country she sought as allies to fight Hitler have been conquered by the Germans.

The next victim is England. The British empire will be destroyed next year. They are sitting on the island waiting.

replied, that he considered such activity to be a part of the duties of his office.

When the District Attorney had answered the question, Thompson took a knife from his pocket and started toward the witness stand where Mr. Morrison was seated. Deputy Sheriff Carl Black grabbed Thompson and forced him back into his seat.

Thompson later told Deputy Sheriff Black that if he had not been stopped he would have stuck his knife into Morrison so deep he could not get it out.

So far as known by this newspaper this is the first time a defendant has attempted to attack the District Attorney in the Court Room.

The jury gave Thompson 4 years in State prison and there is no doubt that his conduct contributed to the severity of the sentence imposed upon him by the jury.

A THOMAS Label is your Guarantee

That is why we keep reminding you of our prescription department—a life time of service is behind that label.

If you fully realized the importance of the compounding of your Doctor's prescriptions, you would hold in still higher regard the policy of this old drug store. It is safe to have faith in us.

The registered graduate Pharmacists at our store are capable, and in times of sickness you need the services of this kind of Pharmacy.

When you have a prescription filled here you do not have to wonder "What's in the bottle"—there is a record behind this old drug store in which we are proud.

Since 1890 we have maintained a standard—the highest standard and the quality the best obtainable, that's why it is safe to have faith in us.

See that your prescriptions bear the Thomas label!

Geo. A. Thomas and Sons
Prescription Druggists
Service Since 1890.

MATOCHA-JENKINS

Miss Rosalie Matocha, daughter of Judge and Mrs. B. P. Matocha of Austin and Leo E. Jenkins, son of the late E. J. Jenkins of Sioux Rapids, Iowa, were married at Spoha's Hospital, Corpus Christi on the 13th of September with Rev. George Phillips officiating.

Mrs. Jenkins is a graduate of St. Anthony's Grammar School and Yoe High School of Cameron. She took post graduate work in Austin, and graduate from Seaton Hospital in Austin in 1939. She held the distinction of being president of her class for three successive years. Since her graduation she has held a hospital position in Corpus Christi.

Mr. Jenkins is a graduate of Sioux Rapids High School and Junior College and is now stationed in the personnel office at the Naval Base in Corpus Christi.

On their honeymoon trip they visited Laredo and other points of interest in Mexico. They will make their home in Corpus Christi.

GERMANS LAUNCH BIG DIRVE FOR MOSCOW

German armies today were reported to be well on their way in a gigantic all out attack on Moscow.

In London the view was expressed that the final decision in the east was now in the making and when Hitler spoke of a development within the past 48 hours that the attack was already under way.

One German army is approaching the Soviet capital from the west and another from the east. The Russians have attacked with great vigor in the Leningrad sector and also in the Ukraine and the German forces are being rolled back. This was taken by military observers to indicate that the German army has been withdrawn to some extent from these sectors and all of their might possible to array is now being thrown into the battle in an effort to reach Moscow.

ROTARY ANN NIGHT

The Cameron Rotary Club will observe Rotary Ann night Wednesday, October 8 at the Cato Cafe.

Charles M. Hicks, Chairman of the Program Committee, has arranged a musical program out of Baylor University in Waco. Dr. Homer Raney, President of University of Texas and Pat M. Neff, President of Baylor University, were invited to speak, but could not accept the invitation due to other engagements.

The local club plans two Rotary Ann nights each year.

UNCLE JOHN ARLEDGE

Friends throughout the city will be glad to know that Uncle John Arledge, who has been ill for the past week or more, is able to be up.

A good number of friends greeted him Friday afternoon as he came to a local Barber Shop for a hair cut. He returned to his home early.

Mr. Arledge is one of the old time citizens and can tell many interesting stories of happenings in Milam county from his own experience. He reads the Midget each day and in this way has kept in close touch with his friends during his recent illness.

tricky?—not at all!

When it comes to cajoling four generous servings of grand-tastin' beer from one bottle, the quart size of Grand Prize makes this achievement no trick at all.

You see, 32 sparkling ounces of superb brew are stored away in each quart for your convenience. When friends or relatives gather, you need uncap only a quart or two to insure the success of the evening. And well, when you serve grand-tastin' Grand Prize, your rating as a host will hike itself upwards—just see!

Today—inflate your taste to the deep mellowness, the undeniably fine flavor, of this great brand. Then—real soon—stock up with quarts for get-togethers . . . and with 12 ounce bottles or Keglined cans for individual servings. Your favorite dealer features Grand Prize Beer.

HAYS LEADS SCORING WITH FOUR TOUCHDOWNS

The Yoemen gave notice Friday night at Caldwell that they will be in the thick of the district title fight and there is no mistaking they are coming along rapidly.

The score was 32 to 6 in a wild scoring spree led by Bobby Hays who accounted for four touchdowns during the game and tossed a touchdown pass to Curtis Phipps.

The game was disappointing. Caldwell was not as strong as McGregor and it must be said that the Yoemen have not yet met real opposition.

Passing, which usually does not enter Coach Wood's type of play, predominated for a while as the Yoemen ranged over the field scoring at will.

The game was but a few minutes old when the Yoemen were down in striking distance of the Hornet Goal. Hays passed to Phipps for the touchdown and the score came after a 65 yard drive down the field. Salach failed to kick goal. The score came within the first 4 minutes of play.

Opening the second quarter Hays, who calls signals, drove down the field and took the ball through center over the goal line for the second touchdown. A few minutes later the Yoemen were down on the Hornet's goal again and Hays went over from the 2 yard line.

A few minutes after Hays had scored from the 2 yard line he intercepted a Hornet pass and ran 65 yards for another touchdown. Salach kicked goal.

Caldwell picked off to Cameron to open the third quarter. Hays took the ball went around right end and ran 40 yards for another touchdown. Salach missed the goal. Hays was hurt on the play and was taken out of the game but within 5 minutes was back.

The only score made by the Hornets during the game came late in the fourth quarter. A. Piwonka got away for a 50 yard gain and several plays later they had marched the ball to the Yoemen 10 yard line where C. Pillow went over for the score.

The Yoemen made 17 first downs.

Caldwell made only 5. Frank Torno and Mack Nicholson were a threat throughout the game with plenty of yardage gained. In the line there were a number of stars.

42 LEISURE CLUB

Mrs. L. F. Slama was hostess to the 42 Leisure Club on Thursday at 2:15 p. m. at her home. She had as visitors, Mrs. August Horstmann, Mrs. Paul Laake and Mrs. Henry Dreyer.

Games of 42 were played with high score going to Mrs. George Schiller, and second high going to Mrs. P. L. Bergum. The traveling prize went to Mrs. Leo Laake and table cuts to Mrs. Edwina Adams, Mrs. P. L. Bergum and Mrs. August Horstmann.

Refreshments of a salad were served to the members and visitors. Mrs. John Matystik of Clarkson is on the sick list this week.

Tour Is Made of Tenant Purchase Farms in County

A tour of several Tenant farms was made on Wednesday, September 17th, by a group of twenty six interested persons. The farms and farmsteads were inspected and the diversified and live at home type of farm and home programs was discussed and demonstrated.

Farm homes of the following Milam County families were visited: Rudolph D. Provazek, Pete J. Orsag, Walter J. Senkel, Henry W. Reddehase, Will E. Stoebner and Frank J. Jahn.

The following information relative to the Tenant Purchase program in this Region and in this county was given those who made the tour by Louie Dunbar, County Rural Supervisor:

The following Milam County tenants have become farm-home owners under the Tenant Purchase Program:

Ralph S. Caffey, Hugh Caffey, Chesley B. Gilbert, Frank J. Jahn, William H. Kohring, Sam L. Lewis, Pete J. Orsag, Ira L. Pack, Rudolph D. Provazek, Henry W. Reddehase, Walter J. Senkel, Frank J. Stallcup, Will E. Stoebner and Leroy E. Ward.

Diane Luckett of Austin spent the week end with her parents, Mr. and Mrs. Val Luckett.

Mr. and Mrs. J. C. Komar of Ben Arnold spent Sunday with their daughter and son in law, Mr. and Mrs. Jack Stidham.

Pythians Celebrate 51st Anniversary

On Monday night a large crowd of local Pythians and delegations from Waco, Temple and Bryan met at Cameron to celebrate their 51st anniversary.

The Bryan team conferred the rank of Page on 9 candidates.

The Grand Keeper of Records and Seal, Theodore Yarbrough, presented Fritz Fahrendorf with a Veteran's pin.

A list of the Past Chancellors was read and also a list of those who had been members over 25 years.

Jeff T. Kemp was the only charter member present having joined in 1890. The next two were Robert McLane, who joined in 1891, and R. H. McIntosh, who joined in 1893. After the ceremonies the members and their guests were served a oyster supper.

Mr. and Mrs. C. B. Baskin and daughters Mrs. Elmer Williams and Mrs. Walter Heard of Buckholts spent Sunday in Cameron visiting Mr. and Mrs. Andrew Miller.

Joe Hebner, Jr., of A & M is spending the week end with his parents, Mr. and Mrs. Joe Hebner.

BIG RATTLER KILLED

C. B. Mode reported to the Daily Herald that he killed a large rattlesnake in Highway 36 at the west edge of the city last Saturday night. The snake was squarely across the highway and had 14 rattlers. It was one of the largest killed here in many months.

BOND SALES

Sale of Defense Bonds and securities show a total of only \$675 for the week in Milam County. Of this amount Thorndale and Cameron contributed the largest share.

The grand total for the period is \$110,139.75 and when they mature will be worth more than \$131,000 to purchasers.

Mr. and Mrs. D. D. Bartlett of Bartlett and Mrs. A. Davidson of Temple were guests in Cameron Sunday of the Cameron Firemen. Mr. Bartlett is chief of the Bartlett Fire Department.

MILANO MAN DIES IN FALL FROM MOVING TRAIN

D. Bullock, 47, was killed sometime Tuesday night in Abilene as he stepped from a moving freight train.

Word of the fatal accident was received here Wednesday morning and an ambulance from the Coleman Funeral Home left Cameron around noon Wednesday to bring the body back to Milam county. The body will be at the Coleman Funeral Home until the funeral hour which will be sometime Thursday.

Bullock will be buried at his home in Milano.

He was reared in the Milano community and was a brother of B. F. Bullock, former Constable at Milano and Olie Bullock also of Milano. The family has lived in that section for many years.

No details were available concerning the accident in which Bullock met his death, but it is believed he was on his way to West Texas oil fields where he is often employed.

42 LEISURE CLUB

Mrs. John Matystik of Clarkson entertained members of her club and four guests, Mesdames Howard Schwarting, Hugo Miller, Walter Kosely and Hugo Boedeker on Thursday.

Mrs. Matystik carried out a pink and blue color scheme with prizes, tally cards, score pads and in the refreshment course.

Games of 42 were played with Mrs. Walter Kosel holding high score, Mrs. Herman Boedeker, Jr., holding second high. "84" fell to Mrs. L. F. Slama, consolation to Mrs. George Schiller, while table cuts fell to Mesdames Leo Laake, Schwarting, Walter Kosel and Wm. Sell.

During the business session Mrs. Wm. Sell was appointed to succeed Mrs. Steve Marak, Jr., as treasurer. Our club regrets to lose Mrs. Marak as she is moving out of the city, but we wish for her the best of luck.

Mrs. Matystik, assisted by Mesdames Bergum and Sell, served angel food squares with the name of the club inscribed, and peach ice cream.

Our ads always bring results.

"I ALWAYS SHOOT FIRST" SAYS HITLER

Adolph Hitler, in his first serious speech of the present war, let it be known to the German people Friday that Soviet Russia is a tough foe and the end is far from sight.

The Nazi leader said there is no doubt that he will win the war but that Russia had been unexpectedly prepared for war and when he gave orders to strike the Soviet he anticipated a victory much more easily won than what he says will now require in sacrifice to gain.

Hitler said he was not answering those who have questioned his silence. His address was a report to the German people.

He said that when he attacked Russia the Soviet had concentrated many divisions of men on the East Prussian border and he had only 4 divisions. "I do not wait for the enemy to shoot," he said, "I always shoot first."

Hitler declared that since the war with Russia began that everything has progressed according to plan, which would seem to belie his assertion that Russia was unexpectedly prepared for war.

The speech was taken in European capitals to indicate that the campaign in Russia is not progressing well and the story of the Soviet preparations is an alibi.

The British were doing no fighting and were not expected to do any. The whole outcome of the war is dependent on how Russia is able to stand up against the Germans.

In Washington the government officials were talking of Liberty and Peace. Many brave words have been spoken but no shots have been fired.

YANKEES WIN

The New York Yankees defeated the Brooklyn Dodgers in the first game of the World Series in Brooklyn Wednesday. With two men on the Dodgers hit into a double play and lost their chance to tie the score.

Mrs. Gilbert McCollum, Jr., and daughter, Lelene have returned to their home in LaPort after a week's visit in the home of Mr. and Mrs. Judd Davis.

PHILATELIC TRUCK DUE HERE ON OCTOBER 31

The Postoffice Department in Washington has informed Postmaster, J. R. Hays in Cameron that the department's philatelic truck will be here on Friday, October 31st from 9 a. m. to 3 p. m.

All stamps made by the government of the United States, including commemorative stamps, will be on display. The display will be a big thrill for local stamp collectors and the public as well.

Each visitor at the truck will receive a free copy of souvenir poster stamps, stamp booklet with pictures and descriptions of stamps, will be on sale at the truck at 25c for paper binding and 75c for cloth.

A new 10c book showing all commemorative stamps will also be on sale.

The stamp display will be of interest to students interested in United States history and each is urged to visit the show.

This will be the first time such a display has been made in Cameron. Local stamp collectors are planning an enjoyable day.

Telephone the news to 282.

GIRL SCOUTS MEET

The Girl Scouts met at the Girl Scout Little House on Wednesday, October 1.

Marjorie Denson passed two activities toward second class. The badges she earned are the "Pioneer" and the "My Troop" badge.

We have two new members, Susan Dalson and Yvona Harper.

FRANK ADAMS IN BERMUDA

Frank Adams, Cameron boy is in Bermuda, arriving there safely several weeks ago when he was transferred out of El Paso under sealed orders to a tactical assignment.

This information was contained in a letter to his parents, Mr. and Mrs. Jim L. Adams of this city. Frank is with Battery E, a unit of the 79th Coast Artillery Regiment that has been in Fort Bliss for anti-aircraft training.

Doris Newton of Austin spent Friday and Saturday with her mother, Mrs. Guy T. Newton.

Mrs. Frank Ernest of Robstown returned to her home after spending the week end with her parents, Mr. and Mrs. R. H. McIntosh.

Grace Plocek of Galveston is spending the week end with her parents, Mr. and Mrs. Walter Plocek.

JOBS FOR TOMORROW

The chemical laboratories of the petroleum industry are now laying the foundation for industries of the future.

Out of their research are being created new products and more efficient ways of making old ones. Synthetic rubber, plastics, explosives, basic chemicals and scores of other essentials developed in petroleum laboratories are already being made on a commercial scale.

These scientific discoveries of materials vital to peace-time needs, as well as National defense, are opening up new fields of industrial activity.

Texas as the leading oil State is playing an important part in the creation of these new American enterprises. As a result, many young Texans now preparing themselves in our schools and colleges will find places in the industries resulting from this research.

The test tubes of today make the jobs of tomorrow.

Woodmen Circle in Cameron Sends Delegates To District Meeting in Mart on September 26

Members of Grove 996 of the local Woodmen Circle were in Mart on Friday, September 26 where they attended the Fall District Convention.

Mrs. Birdie Bennett presided over the meeting. All the Woodmen delegates joined in the singing of "America." The invocation was given by Rev. C. L. Cockrell; the address of Roy Chamberlain, Mayor of Mart, and the response by Mrs. Ella Mae Middlebrook.

District Manager, Mrs. Ella Mae Middlebrook presided during the meeting session and the Krebs Willing Workers, directed by Katherine Owen, assisted. Attendant Marie Ann Laake introduced the guests who were: Laura E. Krebs of Austin, State Manager for Northwest Texas and National Committeewoman, Nettie Yarbrough and Meta Larson, National delegates; Mary Scarmado, State drill captain of Northwest Texas. Alice Bennett Coleman, State Vice President, and Ella Mae Middlebrook, District Manager.

Mrs. Birdie Bennett, Guardian of the Mart Grove, was in charge of the program which was concluded with a solo sung by Miss Alberta McEllyea, accompanied by Mrs. Richter who dedicated the selection to Mrs. Bennett. Corsages were presented to Mesdames Laura E. Krebs, Ella Mae Middlebrook and Alice Coleman. Mrs. Krebs gave the principal address of the morning. A twelve o'clock luncheon was served

to the hundred and fifty six delegates, officers and Sovereigns.

Afternoon session opened with Mrs. Mary Ledbetter, Guardian of Myrtle Grove 44, in charge. Marie Ann Laake, Attendant, presented the candidate, Martha Adams, for initiation to the Cameron Woodmen Circle Grove 996. An invitation was extended by Mrs. Krebs to the National District Meeting to be held in Amarilla on October 16th, National Dora Alexander Talley will be the main speaker for the Convention. Other national officers will be present.

The Cameron Woodmen Circle Grove 996 will be hostess for the Spring District Convention Meeting to be held in March 1942.

Serving as officers at the District Meeting were: President Mary Ledbetter of Waco, Vice President Altha Adams of Killeen, Attendant Marie Ann Laake of Cameron assistant Attendant Maudie Rolf of Waco, Adviser Beverly Jones of Waco, Secretary, Ida Johns of Cameron, musician, Elizabeth Scarff of Waco, reporter; Maggie Knight of Waco, First Auditor; Mamie Brannon of Waco, Second Auditor; Nettie Collier of Mart, Third Auditor. Meta Larson of Austin, Inner Sentinel; Nellie Bashner, Outer Sentinel, Jim Allison, Correspondent to Tidings. Dolores Nettles, all of Mart, Junior Counsellor; Almarie Baxter of Waco and Chaplin Ollie Weed of Marlin.

Mesdames Lois Petty and Riddle of Waco were unable to be present. All Woodmen Circle join in sympathy for these two prominent leaders due to sickness in their families.

Raymond Zawadzke of Ft. Sam Houston was a week end guest of his parents, Mr. and Mrs. John Zawadzke.

Mr. and Mrs. John Kubein and family of Caldwell were week end guests in the home of Mr. and Mrs. Tom Machann.

Nealon Peeler of Dallas was a week end guest of his parents, Mr. and Mrs. Miles Peeler.

NAZI VICTORY OVER RUSSIANS IMMINENT

Soviet Russia was crumbling today under a new German blitz that was gathering momentum with the armies of Hitler within 100 miles of Moscow.

It was the beginning of the end for the Red armies of Joseph Stalin and with the collapse of Russia the war will end so far as Germany is concerned, was the belief of many well informed men in the capitals of the world.

So fierce had become the struggle that thousands of men on both sides were losing their lives in the final thrust of the Germans to win the war.

Dispatches relayed by radio said that the streams were clogged with dead in what is described as the bloodiest battle in history.

The Germans have claimed on several occasions that the fighting was the most severe in all warfare. There were days in the early stages of the Russian campaign when there was doubt the Germans would be able to crush the Soviet.

Wednesday there was little doubt anywhere the war had entered its final stages and some predicted that the end might come within six weeks or less time, depending on the time required for the Germans to take Moscow.

The United States and England were making no effort, so far as the people knew, to back up their pledge of aid to Russia.

President Roosevelt in Washington was believed to be preparing to ask for authority to arm merchant ships. That would be of no practical aid to Russia or to Britain.

The British have quit fighting altogether since the Russians and Germans began their war.

A radio dispatch said that the Germans in forging the great pincer on Moscow had trapped the central Russian armies. Berlin said the Soviet are doomed.

J. P. Petty of Sharp was a Cameron business visitor Wednesday.

FOOTBALL

(Continued from page one)

ward on a pass play until the ball has been thrown. LeRoy Stecher, tackle, made the mistake of breaking through the Tiger line before Hays had time to pass to George Michalka and nullified another bang up touch down play as Michalka went over the Tiger goal with the ball safely tucked away. The play was called back to the 7 yard line and on the next play Hays ran calmly around his left end for the score. Salach missed the goal.

Rockdale scored in the second quarter on pass plays with Billy Bounds doing a fine bit of tossing to Krause. The pass was good for 30 yards and a touch down and the score was tied up when Bounds missed the goal.

The second half saw Mack Nicholson spear heading a drive down the field that led to the second Yoemen touchdown. Rockdale kicked off and the ball went out of bounds on Cameron's 45. Nicholson who had the advantage of a charging Yoemen line ran the ball down to the Tigers 25 and Wilkinson took the ball on the next play in a wide sweep around his own left end for the score. Hays fumbled the snap and Salach could not kick the goal.

The Yoemen line was the whole show as another march began from deep in the Yoemen territory and culminated in Wilkinson's sensational 50 yard run for the final score for the Yoemen. Salach kicked goal and the Yoemen had 19 points.

Later in the fourth quarter Hays, with the ball on the Rockdale 12 yard line, tossed to Eiland instead of a Yoeman hidden on the bounds and Eiland knew exactly what to do, with some great blocking by the Tigers, as he started off from his own 4 yard line and ran 96 yards for a touchdown. Hays missed a tackle

on the 40 yard line and Eiland was never seriously threatened thereafter. Bounds kicked goal and that ended the scoring for the night.

Rockdale began to pass desperately, but the game ended.

Owen Stidham, big blonde tackle, was both a defensive and an offensive demon. If anything should be said in comparing back field with line play the hat was off to another boy who has had little chance this year. He is Homer Terry and he just about carved himself a big niche in the Yoemen column of time. It was good to see. Woodrow Erms back in the game for the first time this year after an injury in the scrimmage with Granger. Billy Cosby, 160 pound guard, set everybody to thinking about his place on the all conference 11 and it was Jim Dycus who justified advance prediction that the line is and always will be the deciding factor in football offensive.

Curtis Phipps and George Michalka were never better at end play.

When a Child Needs a Laxative!

Your child should like this tasty liquid laxative and you should like the gentle way it usually wakes up a youngster's lazy intestines when given by the simple directions.

SYRUP OF BLACK-DRAUGHT contains the same principal ingredient which has enabled its older brother BLACK-DRAUGHT to give so many users such satisfying relief for so many years!

Perhaps that's why it usually gives a child such refreshing relief when the familiar symptoms indicate a laxative is needed.

SYRUP OF BLACK-DRAUGHT comes in 2 sizes. The introductory size is 25c; the economy size is 50c.

NEWS FROM MAYSFIELD

The community party at Maysfield school given on Tuesday night to pay for needed equipment was quite a success.

Hot lunches are now being served to the school children. The mothers of the community have shown a very co-operative spirit by working in the kitchen until the regular cooks arrive. They are expected on Thursday or Friday.

A Memorial service for Mrs. H. L. Atkinson is to be held in the Presbyterian Church on Wednesday of this week.

Mr. and Mrs. T. W. Linam accompanied their son and daughter, Mr. and Mrs. Thomas Linam of Rosebud to Waco Saturday.

Billy Freeman, student at Lon Morris College, visited home folks this past week end.

Mr. and Mrs. W. T. Walker were Burlington visitors on Sunday afternoon.

Friends of Miss Imogene Hollingsworth are glad that she is able to return from Marlin Hospital where she has been a patient for some time.

Mr. and Mrs. Hal Armstead and daughter, Dianne, were recent visitors in the John Thweatt home. Mrs. Ralph Massengale accompanied them and remained with her sister, Mrs. Roy Newton, who is showing definite improvement at the present time.

Tommy and Pat Gleason visited relatives in Burlington Sunday and Monday.

Mr. and Mrs. Richard Loftin visited in the home of her parents last week end. Mrs. Loftin is the former Dorothy Mae Weems.

Miss Bobbie Jean Gilbert has returned from a visit in Houston.

Mrs. Helen Miller and daughter, Katherine of Franklin, visited Mrs. R. A. Smit's Tuesday afternoon.

MISCELLANEOUS SHOWER

Mrs. Wright Price honored Miss Mary Beth Price, bride to be of Carl Walzel, with a miscellaneous shower at her home on Tuesday night at 7:30.

The room was decorated in orchid and white, the color scheme being carried out with many beautiful flowers. Miss Joyce Ann Love of Temple, cousin of the bride, directed the games and Miss Edna Mae Houston presided over the bride's book.

Many bridal games were enjoyed, one being a spelling test for the bride. The prizes were won by Enid Walzel and Mrs. D. H. Slaughter, who later presented them to the bride.

After the games were played some one knocked on the door and there

was special delivery package for the bride to be. She went to the door to find a huge basket, decorated in orchid and white, filled with many beautiful gifts. She opened the packages and thanked each one in her own Refreshments of sandwiches, cake and punch were served to the 40 guests. Bride and groom napkins and plate favors in the shape of hearts were used.

The couple will be married on October 21 and will make their home in San Antonio, where he is employed.

EASTERN STAR

Second meeting of the Past Worthy Matrons, Order Eastern Star for this area composing four OES Chapters, was held here Tuesday in an all day session at the Masonic Hall, with a midday luncheon in the dining room, served in cafeteria style. This was followed with a business session with the President, Mrs. Annie K. Isaacs of Rockdale, presiding over the meeting. At this time the club voted to name the club, "The Annie King-Isaacs Club," honoring Mrs. Isaacs' who has been actively engaged in the work for nearly forty years and was a Grand Chapter officer and organized the local Chapter here. They also elected the following new officers for the ensuing year: President, Mrs. Gertrude Harsha, Cameron; First Vice President, Mrs. Lamar Vaughan of Calvert. Second Vice President, Mrs. Mable Brown of Hearne; Third Vice President, Mrs. Jessie Clark Sessions of Rockdale; Secretary-Treasurer, Mrs. Margarette Burke of Cameron; Parliamentarian, Mrs. Constance Pietch of Calvert.

During the forenoon Miss Delphya Scott had charge of the guests book and registered in the members from the following chapters that compose this area: Rockdale, Mesdames Annie K. Isaacs, Leona Cooke, Evie C. Glenn, Jessie C. Sessions and Charlotte Taylor. Hearne, Mesdames Frances Hoyte and Mable Brown; Calvert, Mesdames Constance Pietch, Lamar Vaughan, Dottie Weise and Miss Dee McMordie, Cameron, Mrs. Jeff T. Kemp, Miss Delphya Scott, Mesdames Pearl Graves, Lena Sharpe, Matilda Newton, Aileen Bonds, Bettye Stafford, Martha Shepherd, Gussie McGregor, Margarette Burke, Irene Smith, W. E. Kuehl and Annie W. Longmire.

E. C. Schmidt of Pettibone was in Cameron business visitor Monday.

Mr. and Mrs. R. A. Miller of Belmena were Cameron guests Monday.

Mrs. Dude Houston of South Elm was a Cameron business guest Monday.

Joe Lankford of Hanover was in Cameron Monday on business.

NEWS FROM LIBERTY

Officers for the Bryant Station H. D. Club were named as follows: President, Mrs. R. A. Allison; Vice President, Mrs. Edward Senkel; Secretary, Miss Cleo Neal. Council Delegate, Mrs. R. L. Zedlitz; and Reporter, Mrs. Elmo Obermiller.

The value of a "frozen food locker and Land Use Planning" were the main topics discussed by Mesdames R. A. Allison and L. H. Obermiller who represented their club at the recent Farmers Short Course.

Thirteen members and one visitor, Mrs. John Henson, were present.

Plans are underway for the annual achievement of the Bryant Station H. D. Club which is to be held in the R. A. Allison home on Thursday night, October 23 at 7:45.

Utilization of the whole grain in the diet, yeast breads and hobbies will make up the major exhibits, Mrs. Elmo Obermiller, Club president said.

Guest speakers have been invited for the occasion.

Mr. and Mrs. Hugh McVay carried their daughter, Violet Mae, to Taylor Monday morning to an ear specialist where she had been under treatment for some time.

Mr. and Mrs. G. L. Jones made a business trip to Marble Falls last week end.

Mrs. Henry Abel, Jr., spent Monday in the Edwin Gurtz home.

Mr. and Mrs. Emil Baiusek and son Johnnie, of Granger were local visitors this week.

Mrs. Julius Tomasek and daughter Nell, of Buckholts were guests of her sister, Mrs. Henry Luksa one day

last week.

Robert Flannigan formerly of this community, was a recent visitor in the R. A. Allison home but will leave soon for Honolulu where he will be stationed for two years.

G. C. Todd of Briary was a Cameron business visitor Monday.

Sgt. Raymond Laywell of Camp Bowie in Brownwood is spending a few days in Cameron with friends and relatives.

Bill Wallace of Camp Bowie is spending a few days in Cameron with his mother, who has been ill for some time.

Ed Gunn of Rockdale was a Cameron business visitor Monday.

J. M. Crump of Tanglewood transacted business in Cameron Monday.

John Watson of Camp Bowie in Brownwood is spending a ten day furlough with his parents.

Wondering about the 1942 cars?

Here is Buick's superb solution to the problems posed by making our national defense, as it should be, industrial America's No. 1 job

BUICK BUILDS
FOR DEFENSE

Our assignment: Building Pratt & Whitney valve-in-head aircraft engines for defense use.

IT WAS no time to duck or dodge the facts. So we didn't try.

Instead we said—these being the materials critical in the defense program, we'll do our planning for 1942 with that foremost in mind.

Not merely for an "acceptable" car—certainly not for any "ersatz" number.

We had to have a real and representative Buick. One we could be proud of. One able enough, active enough, durable enough to serve till annual new models are the rule again.

We resolved on a 1942 automobile of such merit as could carry the Buick reputation without fault until other new Buicks, however far off, could come along to refresh it.

Now we're announcing those 1942 cars.

Why waste words telling you how good they are! You can't put language in the gas tank and learn either how many or how enjoyable are the miles you'll get per gallon.

There's a better answer—you drive these cars themselves. Come on, do that! Put your own yardstick on their quality.

It would be a shame, for you and for us, to have you miss the dreadnaught Buick we've built to stand up successfully to the toughest job in years.

No other car has ALL THIS FOR YOU IN 'FORTY-TWO

FIREBALL STRAIGHT-EIGHT VALVE-IN-HEAD ENGINE ★ COMPOUND CARBURETION (standard on most models) ★ OIL-CUSHIONED CRANKSHAFT PINS AND JOURNALS ★ STURDI-LITE CONNECTING RODS ★ STEPON PARKING BRAKE ★ BROADRIM WHEELS ★ FULLY ADJUSTABLE STEERING POST ★ BODY BY FISHER ★ WEATHERWARDEN VENTILATOR (accessory)

Robert Dycus, former resident of Milam County and now of Freeport, was a Cameron visitor Monday.

R. L. Butterfield of Bryant Station was a Cameron business visitor Monday.

REVOLT HAMPERS NAZI CONTROL IN EUROPE

Revolt, wide spread and taking various forms, overshadowed the war in Russia as Germany faced an increasing problem in all the occupied countries.

Growing resistance in Czechoslovakia had made that little country the chief operating center of the German Gestapo. Already more than 100 Czecks have been shot to death by their conquerors.

The war in Russia was regarded as now practically won by Germany although the Russians were counter attacking at Leningrad and throwing the Nazi back for miles.

In the Eastern portion the Germans had reached the rich valley of the Donet where practically all of the Russian industries are located for the vast Ukraine. This is the beginning of the end of the Soviet empire, it was predicted in some quarters.

Winston Churchill predicted that the Germans would launch warfare in Egypt, Spain and the near east and may be more significant than all first indicated, because in times past the British have been able to foresee German moves and to predict with accuracy.

Mr. Churchill said the Germans were strong enough at this same time to attack the British Isles and if this occurs the war may be decided within less than a week and Hitler may finally meet defeat in attempting to conquer the British Isles.

THE YWA MEETS

The YWA met with Mrs. Woodrow Lowe Thursday at 8 p. m. The meeting opened with the discussion of business. This was the last meeting of that group as the YWA will become a branch of the Bernia Miles Circle of the WMU. Plans were discussed for the reception to be given by the Bernia Miles Circle for the in-coming YWA's on next Thursday night at the Educational Building near the Baptist Church.

Mrs. Earl Moseley, member of the WMU, met with them and discussed the duties of the officers of the WMU. Mrs. Roy Hensley had charge of the program title "Prayer." Mrs. Clifford Weise is the newly elected chairman. There was one visitor, Mrs. Raley, and one new member, Mrs. Dismuke.

Refreshments of pineapple pie and coffee were served to the guests and members.

They adjourned to meet with Mrs. Roy Hensley the next meeting.

OBSERVES BIRTHDAY

Mrs. Charles E. Bishop and sister, Mrs. Bill Williams surprised their cousin Mrs. W. A. Collins with a birthday party Sunday at the home of Mrs. Bishop. Mrs. Collins will be 70 years old on Monday.

Refreshments were served to the 20 guests that were assembled and Mrs. Collins received many beautiful gifts.

Mr. and Mrs. Sidney Lynn of Rosebud visited in the home of Mr. and Mrs. Adolph Winfield on Thursday night.

Dental Clinic Here October 8, 9 and 10

It was announced by Dr. Reed, that the Dental Clinic for school children will be at the Ada Henderson School on October 8, 9 and 10. All parents are urged to have their children in school on those days and to have their teeth examined as this will be their last opportunity. A large percent of the children need dental care and for that reason the Dental Clinic will be here three days. Later there will be an eye clinic.

D. A. R.

The Sarah McCalla Chapter of Daughters of the Revolution entertained with a tea Saturday afternoon at the home of Mrs. Bertha Brewer. The honoree was Mrs. Edwin Horton Lammers, State Regent of the DAR.

After an informative lecture by Mrs. Lammers, guests were invited into the dining room by Mrs. Olive Todd Walker, local regent. The beautifully decorated table was presided over by Mrs. Frank Ernest of Robstown. Miss Henriem Hefley, Miss Katherine Flinn, Mrs. Henry Hefley and Mrs. L. E. McKnight assisted in serving.

Dean Hopper of California recently visited in Cameron with Floyd Hatch. Both boys are stationed at a flying school in California.

Mr. and Mrs. Ernest Howard and children of Waco spent Sunday with her mother, Mrs. W. F. Brewer.

How to Avoid one household trouble.

Modernize Hot Water Service

If you're living in a home where the family has outgrown the water heater or it is worn out and inefficient you know the trouble and delays you have. The cure is obvious—a new gas-automatic water heater. Your gas service operating through the efficiency of a modern water heater provides instant hot water when and where you want it without trouble on your part, and does it for only a few cents' worth of gas a day. Let your gas service step-up the efficiency of your home to end hot water troubles.

Dependability IS WHAT PUTS VALUE IN A GAS SERVICE

NEWS FROM MILANO

Funeral services were held at the Methodist Church Wednesday for Arthur H. Bullock, conducted by Rev. Oliver Cole. Coleman Funeral Home of Cameron had charge of the funeral arrangements.

He was survived by three brothers, Carl Bullock of Kilgore, Key Bullock of Corpus Christi and Jodie Bullock of Milano. A large crowd of relatives and friends attended his funeral.

Mr. and Mrs. Chas. Miller and daughter Ann of Houston were week end guests of their mother, Mrs. Ida Howes.

Mrs. John Hooke and daughter, Mary Francis have returned to their home in Lake Charles, La., after a month's visit with her parents, Mr. and Mrs. H. White.

Mr. and Mrs. S. W. Taylor visited Mr. Taylor's sister, Mrs. Ben Vanover at Palestine Friday. Mrs. Vanover has been very sick, but her condition is somewhat improved.

Milano Sunday School met in a joint meeting with Gause Sunday School last Sunday at Gause. All stayed for church and had dinner on the ground. All reported a pleasant day.

Mrs. Claude Hooker and baby of Palestine were recent visitors in the home of Mr. and Mrs. F. W. Hooker.

Mrs. Mullins had for her guests, her daughter and grand daughter of California. They will also visit their brother and uncle, Sebron Mullins, who is ill in Marlin Hospital. His condition is somewhat improved.

Mrs. S. W. Taylor was a Houston visitor last week.

Jeff Mills still continues on the sick list.

Mr. and Mrs. Carl Newman of San Antonio were visitors of their parents last week.

Mr. and Mrs. Henry McCormick of Friendship were Cameron business visitors Thursday.

Mrs. John W. Barrett of Belton was a Cameron business visitor Wednesday.

Three Men Given Prison Terms Here

Three Milam county men must serve terms in Texas Prison as the result of convictions in District Court Monday morning.

Jim McCormick and Jack Turner of Thorndale must serve two years in Texas Prison for burglary and Gene Nelson of Cameron was given three years in Texas Prison for forgery.

All men entered pleas of guilt. In the case of McCormick and Turner their sentence will run concurrent which means they will spend one year in prison.

FONTAINE-HICKS

A wedding of interest to many friends in Cameron and over the county was the marriage of Miss Roxie Florene Fontaine to Cecil E. Hicks. The ceremony was performed by Rev. Mr. Cole of Milano Methodist church, Saturday evening, Oct. 4th, and was witnessed by the grand mother of the bride, Mrs. J. P. Fontaine of Cameron.

The bride was attired in a moss green fall costume, with matching accessories. Miss Fontaine has been teaching in this county for several years, and is a member of an old established Milam county family, and has been making her home here with her grand mother.

The groom is the son of Mr. and Mrs. R. F. Hicks of Conroe, where he had made his home until coming to Cameron to accept a position with the Coleman Furniture Company. They will make their home in Cameron.

LEAVING FOR ARMY

Shirley McLean will leave Cameron to report to the Houston Draft Board at 7:30 a. m. for service in the United States Army. He will be taken from Houston to Fort Sam in San Antonio.

For the past several months Shirley has been employed with the Cheeves Bros. Store, but prior to this he was employed in Houston and for that reason was registered with the Houston Board.

Many from Cameron attended the circus in Waco Wednesday night.

CHURCHILL REVIEWS THE EUROPEAN WAR

Prime Minister Winston Churchill in a speech to the House of Commons in London, told the British people that prospect of invasion of the British Isles is ever present.

Mr. Churchill made a review of the war and discussed all phases of the conflict, stating in brief that England has yet to fight the battle for her life. That Germany is still strong and the struggle ahead to defeat the Nazi is a long trail of blood and tears.

Mr. Churchill laid great stress on aid from the United States. There has been little doubt in the minds of competent observers that England would be able to survive a full force German attack.

Mr. Churchill's admission that an invasion is to be expected would indicate that the British have given up all hope of a Russian survival against Hitler's army for if Germany is defeated in Russia there will be no invasion.

Mr. Churchill gave a slight indication that the British may be soon fighting on the continent or extending aid to Russia through the near East but this would be a military secret and Mr. Churchill would not be at liberty to divulge any information regarding such a plan.

In Washington the situation was unchanged with the exception that a crisis may be brewing over modification of the neutrality law in which case the President may engage in another fire side chat of brave words and no action.

DRAFT BOARD MEETS

Local Board No. 2 for Milam County, held regular meeting at 4 p. m. Tuesday. A call for two white men and one negro has been issued for November.

With all classifications the business of the board is confined largely to appeals by registrants and requests for deferment.

EPISCOPAL CHURCH

Sunday, October 12th, Holy Communion and Sermon at 11 o'clock.

STOVE WANTED

A wood heater, fairly large, is badly needed for the sleeping room at the Nursery School in Cameron. Anyone who wishes to help the school and keep the little fellows warm this winter will earn the gratitude of many by donating this stove. Please call Mrs. L. Van Perkins.

COUNTY CHEST

The Annual Meeting of the subscribers to the Cameron Community Chest will be held at the Chamber of Commerce Tuesday evening, Oct. 14th, at 7:30 p. m. at which time reports will be made and the budget for the ensuing year adopted. Please make it possible to be present.

J. A. McKinney of Jones Prairie was a Cameron business visitor Saturday.

Massey-Harris Tractor Demonstration Here October 7, 8 and 9

Free demonstration of the Massey-Harris Tractor will be held on the Will Vaughan farm east of the city on Highway 77 Tuesday, Wednesday and Thursday, October 7, 8, and 9.

The Massey-Harris tractor is being sold in Cameron by the Jenkins-Simank Implement Company with Dero Jenkins and Otto Simank the owners.

Farmers are invited to see this demonstration and drive the Massey-Harris tractor in actual farm work.

The tractor is being sold here for the first time but is an old and established manufacture and has been sold for many years.

Two Cameron Students Make High Honors at College in Denton

Denton, Oct. 1.—Because of outstanding scholastic and citizenship records, Misses Margaret Martin and Vera Ford of Cameron have earned the positions of student assistants at Texas State College for Women.

Majoring in bacteriology, Miss Martin will be student assistant in the biology department. She is a senior student and the daughter of Mr. and Mrs. J. C. Martin. Miss Ford, daughter of Mr. and Mrs. Joe Ford, assists in the education department.

ment. She is a freshman student majoring in kindergarten-primary education.

Chosen because of their excellent records, Misses Martin and Ford must maintain these high standards while they are occupying these positions.

91 Year Old Man Is Checked at Newton Clinic; Must Slow Down

Austin Moss Miller, 91, of Idabel, Oklahoma, decided he should have a check up on his physical condition and came to the Newton Clinic in Cameron where Dr. W. R. Newton, Jr., gave him a thorough examination.

He was advised by Dr. Newton that he is in excellent condition but should slow down a bit.

A son 55 year old was with his father and lectured him somewhat for keeping late hours and expressed the hope that he would take the physician's advice and leave off the strenuous life.

Dr. Newton said that Mr. Miller can qualify for live insurance.

They were on their way to Houston after the examination. Mr. Miller heard of the Newton Clinic in Oklahoma and came here because he wanted to be satisfied about his condition.

R. C. Smith of Val Verde was a Cameron business visitor Monday.

Basel McGregor of Milano transacted business in Cameron Monday.

THE RECORD... Facts That Concern You

No. 32 of a Series

"THIS BOOK ISN'T WORTH READING ... tear down the Library!"

One bad book doesn't make it a bad library. You wouldn't destroy the library to get rid of a few bad books.

A similar situation holds in the beer industry. The vast majority of beer retailers operate clean, decent law-abiding establishments. Now and then an occasional "black sheep" retailer turns up who violates the law or permits anti-social conditions.

The Beer Industry is now actively working to eliminate such retailers. We want to protect your right to drink good beer and our right to make it.

We also want to protect the economic

benefits of beer. Right here in Texas, beer provides employment for 31,165 persons, supports an annual payroll of \$22,076,182 and contributed \$2,273,968.64 last year in state taxes.

This state, too, has an important stake in Beer's purchases from more than 100 industries supplying the brewing industry with materials, equipment and services.

You, too, can help the cause of moderation by (1) patronizing only the reputable places where beer is sold, and (2) reporting any law violation you may observe to the duly constituted authorities.

BEER...a beverage of moderation

Bond sales for the county showed a slight increase according to report made by Emory B. Camp, chairman for the sale of bonds in the county. Cameron reported \$2,081.25 for the week.

BIG RAIN

Cameron got almost an inch of rain within a few minutes this afternoon. The rain was not general. Continued hot weather was believed to be the result of storms on the Gulf. Something like a record has been made in high temperatures for October. There was no prospect of change except the weather will grow much warmer in the next 48 hours.

Word comes from Flying Cadet, Thomas Jefferson White at Randolph Field that Paul Stach is also at the field and both are flying in separate squadrons. Stach in a message to a Cameron friend said he hoped to fly over Cameron soon.

WITH THE BAPTIST

We were happy that 304 filled their places in Sunday School Sunday morning and the offering amounted to \$134.73. Training Union attendance was 126. We appreciate the fine spirit manifested by leaders and workers alike as we begin this new Sunday School year. As this year closed, we realized there were many things not accomplished but we plunge into his new year with added zeal and earnest efforts that Christ's Kingdom may be enlarged and glorified.

The Week of Prayer for state missions observed by our WMS was well attended and the programs rendered each day were an inspiration to those present. The offering amounted to \$16.30. This was not a large offering within itself but with other offerings all over the state, it will help to some extent Missions in our own state.

Our annual Baptist Association held at Burlington, October 2nd and 3rd was exceptionally fine. We had the largest crowd ever recorded though the weather was not able. Nearly all the churches in the county were represented and the program throughout was splendid.

Fathers bring your sons. Sons bring your father. The father and son banquet will be held Thursday evening, October 16, at the church. The pastor is planning a program of outstanding merit. We want this to be a great event so make your plans to attend.

The revival at the East Avenue Baptist church, Austin, where our pastor and music director are assisting, will close October 12. Let us remember them in a special way these few remaining services.

We will be looking for you to be in Sunday School and church this coming Sunday. Don't Disappoint God.

POLITICS MAY DICTATE PETITION TO CONGRESS

President Roosevelt will send a special message to Congress on Thursday to ask for modification of the Neutrality Law that has put American ships off the high seas.

It was believed the President would not ask for repeal of the law but only a simple modification to permit arming of merchant ships. This would not offend the Dictators and might improve the President's position with the country.

Kaltenborn, noted new analyst, said Sunday the President would do what was good politically, or take the lines of least resistance and his actions would be certain to be the best thing from a political angle. Mr. Kaltenborn criticized the President for his failure to lead out in on open break with the Axis with the view of making war.

The United States is still at peace with Germany. This country has not as yet severed diplomatic relations with Germany, yet the Nazi have sunk 6 American ships.

The President was in bad humor late Tuesday, weary from a day of consultation with Senate and House leaders over the proposed modification of the neutrality act. No agreement could be reached. The weather was extremely hot in Washington.

At ten o'clock Wednesday the conferences at the White House were resumed and it was understood an agreement had been reached.

The message will be delivered Thursday, it was said. What the President will ask for was not disclosed.

It was predicted that he would ask for very little, only enough to be well within his policy of an all out swimming party short of the water.

N. Y. A.

The Boys NYA project of Waco transferred some furniture to the Cameron NYA Center this week. This furniture consisted of two storage closets, a small desk in red gum and a book case. Mr. Filgo made his weekly visit and showed us three very interesting pictures of health, colonial times and conservation of natural resources.

The girls attended choir practice at the Methodist Church Thursday evening.

A council meeting was called Friday night at which new officers were elected. They were: President, Diana Reed. Vice President, Ruby Denman; Secretary, Marine Owen; Sargent at Arms, Rosa Lee Stolte. Parliamentarian, Dorothy Brock and Reporter, Moselle Owen. The president is to appoint members for the Advisory, Refreshment and Program committees.

We are very proud of our flag which was sent to us from Waco. The girls made the flag pole.

CAMERON WOODMEN CIRCLE, GROVE 996

Mrs. Laura E. Krebs, State manager of the Woodmen Circle is in Amarilla, where a meeting is being held for all Groves in that part of the State. Our National President, Mrs. Dora Alexander Talley. Mrs. Jeanie Willard, National Vice President; Mrs. Mamie E. Long, National Secretary, and many other State and National officers will attend this meeting.

DO YOU KNOW

Do you know that for a number of years past your Cameron Community Chest, after careful investigation as to financial condition of patient, has provided hospitalization in cases of emergency where families could not care for it themselves, or could pay only a part of the hospital fees.

This has been accomplished with the co-operation of local physicians and surgeons who do not make any charge for their own services in such cases.

Suspended Sentence For Hot Check

The first suspended sentence meted out in court here in some time came Wednesday when H. C. Ransom of Taylor was given two years for a bad check given Jule Coffield in Rockdale.

The case was tried at 2:30 p. m. Ransom entered a plea of guilty.

MARRIED

Melvin Cox and Allie Parker were married Saturday by Judge Jeff T. Kemp in his office in Cameron. They will make their home in Buckholts where both have lived for a long time.

JOE EARL TATE

Mr. and Mrs. Earl Tate are the proud parents of an 8 pound son born in the Cameron Hospital Monday evening.

Mother and son are doing nicely. They have named him Joe Earl.
